LEAVE SYSTEM ELIGIBILITY

When a PAR is keyed to update Employment History, the Leave Accounting System interfaces and extracts information needed to create Employee Position History (EPH) on the CLAS. EPH is displayed on the P18 screen & consists of a Position Sequence number, the position number, a begin date, an end date, CBID & time base. This information is the basis upon which the CLAS assigns State Service and Leave Benefit accrual data. The Position Sequence number is usually 01 even if the EE has worked at several departments, because the PAR follows the EE.

- To verify that the CLAS record exists, key the following information in the ACTN fields from any screen on the CLAS.

  ACTN : *P18* SSN : *999 99 9999* LB :   Blank   LV PRD: Blank

- Press the ENTER key. All the positions held by the EE in any department on the CLAS will be displayed, so there may be more than one line entry of data on this screen but only one EPH that is active. The active EPH shows 99/99/99 in the end date.

The CLAS can only recognize one Position Sequence at a time, so if a PAR is keyed to establish the EE in an additional position, or the EE held a CSU position, this will create a new Position Sequence & the EPH on the CLAS will not automatically update. Use PIMS PSN to determine the Position Sequence Number, counting from the top down if more than one is shown. The old position may need to be deleted from the CLAS before the new position can be added. If so, follow the instructions below.

Employee Delete Procedure

- Call Leave Accounting Liaison (916-327-0756) and request an "employee delete". **EMPLOYEE DELETE IS AN OVERNIGHT PROCESS.**

- If the current position sequence on CLAS is with your department, print the employee's State Service and Leave Benefit history for historical reference purposes.

-
  Recommended Screens to be printed prior to the Delete:
  P18 - Employee Position History
  S14 - State Service History Summary Inquiry
  S16 - State Service Transaction Inquiry
  B20 - Leave Benefit List
  B14 - Leave Benefit History Summary for all benefits.
  B16 - Leave Benefit Transaction History Inquiry for all benefits
  B18 - Leave Benefit Characteristics History Inquiry for all accrued
        benefits

◆ If the current position sequence is with another department or CSU, they will be notified and given the opportunity to print the history for the employee's file. It may take a day or two to accomplish this task.

◆ To verify that the employee record has been deleted from the CLAS, enter P18 and the SSN in the fields on the ACTN line. If the message "SSN Does Not Exist" displays, the delete has been completed.

◆ If after a few days the employee is still on the data base, call the Leave Accounting Liaison again.

Once the employee's record is deleted, request the P62 - Leave System Eligibility Maintenance screen to designate the EE's new Position Sequence Number. This will generate an LSE designation on the P62-Leave System Eligibility screen and EPH on the P18-Employee Position History Inquiry screen.

● To access the P62 - Leave System Eligibility Maintenance screen, from any screen on the CLAS, key the following information on the ACTN line:

ACTN: *P62*   SSN: *999 99 9999* LB: Blank   LV PRD: Blank

Then press the ENTER key. The Leave System Eligibility Maintenance screen will display.

Using the P62-Leave System Eligibility Maintenance screen key information in the fields as shown below. *This process generates an LSE transaction.*

SSN *: 999 99 9999*   NAME *:*
PSN SEQ *: 02*   AGENCY / RPT UNIT *: 051 000*
LEAVE SYSTEM ELIGIBLE *: Y*   EFFECTIVE DATE *: 07 01 01*

THIS IS AN OVERNIGHT PROCESS

The day after the LSE designation is keyed on the P62 screen, view the P18-Employee Position History Inquiry screen for accuracy. If incorrect data is displayed, check the Leave Message System or call the Leave Accounting Liaison at (916) 327-0756.

If the correct EPH is displayed on the P18-Employee Position History screen, follow the procedures for "New to CLAS" in the Conditions section of this workbook.

Leave System Eligible and NOT Leave System Eligible

Usually the CLAS is automatically updated per the PAR transaction, but there may be times when you will be required to use the P62-Leave System Eligibility Maintenance screen to designate Leave System Eligibility.

There may also be instances in which you do not wish to track an employee on the CLAS even though an EPH record is displayed on the P18-Employee Position History Inquiry screen e.g., EE has multiple positions in which s/he is eligible to accrue State Service and Leave Benefits. In that case, you will designate the EE "NOT Leave System Eligible" and track manually.

➢ **Designating an Employee Leave System Eligible**

Using the P62-Leave System Eligibility Maintenance screen key information in the fields as shown below. *This process generates an LSE transaction.*

SSN *: 999 99 9999*   NAME *:*
PSN SEQ *: 01*   AGENCY / RPT UNIT *: 051 000*
LEAVE SYSTEM ELIGIBLE *: **Y***   EFFECTIVE DATE *: 07 01 01*

THIS IS AN OVERNIGHT PROCESS

➤ **Designating an Employee NOT Leave System Eligible**

Using the P62-Leave System Eligibility Maintenance screen key information on the P62-Leave System Eligibility Maintenance screen as shown below. *This process generates an NLSE transaction.*

SSN *: 999 99 9999*   NAME *:*
PSN SEQ *: 01*   AGENCY / RPT UNIT *: 051 000*
LEAVE SYSTEM ELIGIBLE *: N*   EFFECTIVE DATE *: 07 01 01*

THIS IS AN OVERNIGHT PROCESS

On the following day, view the P62-Leave System Eligibility Maintenance screen for the designation of LSE or NLSE, and the P18-Employee Position History screen for current EPH.

If you do not see the correct information, check the Leave Accounting Message System for more information, and/or call the Leave Accounting Liaison for assistance.

REMEMBER

Only one position sequence can be maintained on the Leave Accounting System. If you need to change the position sequence number of the employee's EPH record, you will need to request an EMPLOYEE DELETE. (Refer to "Employee Delete Procedure" on the previous pages.)

PAYROLL INPUT PROCESS (PIP)

The Payroll Input Process system (PIP) is primarily used to process pay requests, but can be used to input your Leave Accounting transactions. This section of the workbook contains information to be used in conjunction with the Payroll Procedures Manual PPM. Please refer to the PPM regarding coding requirements for Payroll transactions, general document completion and keying instructions.

This section will explain how to copy a PIP batch to be used for keying attendance and also explain the Payroll cycles and the impacts associated with keying data on PIP.

Copy Batch Process

Each month preloaded batches are generated on PIP for all your active employees. If you use PIP to input your Leave Accounting data but cannot use   the original preloaded PIP batch, the copy batch process can be used to generate a batch with the same data as the preloaded batch.

➢   **Procedures for Requesting A Copy Batch from the Batch Entry Screen**

◆   It is best that a batch be copied before any data is keyed in the preloaded batch as this information will also be copied to the new batch.

◆   Key in the ACTN field **ENT** and the *BATCH ID* on the PIP main menu and press ENTER. The Batch Entry screen for the requested batch will display.

◆   In the ACTN field key *CPY* and in the PAY PERIOD field key the desired *PAY PERIOD* for the new batch and press *ENTER*.

◆   The Batch Entry screen will now display with a new Batch ID number. Please note the new Batch Number.

◆   The initial batch status of the new-copied batch will always be SAV. All pages of the copied batch will have the same pay period on each screen.

➢ **Procedures for Requesting A Copy Batch From the Batch Selection Screen**

◆ If you do not have the Batch ID of the original batch to be copied, request the Batch Selection/Directory screen to locate the batch.

◆ The procedures in requesting the Batch Selection/Batch Directory screen is in the Payroll Procedures Manual.

➢ **Retroactivity**

◆ It is <u>NOT</u> recommended that PIP be used to key any retroactive transactions for Leave Accounting.

◆ For retroactive updates, use the Leave Accounting On-Line system.

Payroll Cycles

Every month, State Controllers Office will send a Decentralized Payroll Calendar to all departments. This calendar includes Semi-monthly and Monthly Master Cutoffs, LAB Report run date, CLAS Monthly Accrual Cycle, Employee Statement of Leave and the *PAYROLL CYCLES AND NO PAYROLL CYCLE DATES* (which is important to know when keying PIP transactions)*.*

Typically there are Payroll cycles every workday of the month unless otherwise noted on the Decentralized Calendar. It is important to know when there are *NO PAYROLL CYCLES* when keying on PIP. PIP is an overnight extraction of data that only takes place if there is a Payroll Cycle. There are a few months during the year that a *NO PAYROLL CYCLE* falls on the day of the Leave Activities and Balances report (LAB).

If PIP batches are closed on one of these *NO PAYROLL CYCLE* days, the data will not be included on that month's LAB as the PIP batch information will not be extracted until sometime after the LAB cutoff.

EXAMPLE :

LAB Cutoff is   November 15th
NO Payroll cycle   November 15th
Next Payroll cycle   November 17th

If a PIP batch is keyed on the 15th the pay/leave information will not be extracted in time for the LAB Cutoff data to be applied to that month's LAB report.

STATE SERVICE

State Service must have a Begin Balance in order for the automated State Service credits & Leave Benefit accruals to be posted each month. A Begin Balance transaction of zero will be generated if the appointment PAR indicates "No Prior State Service". Use the S16-SS Transaction History Screen to verify the begin balance.

The CLAS will **allow** you to post a Begin Balance to State Service in any Leave Period and will recalculate the State Service record from that point. Please refer to the S14-SS History Summary Inquiry screen & the S16-SS Transaction History Inquiry screen.

You will need to post a Begin Balance in the following situations:

1. An internal audit reveals a discrepancy – you may need to void first.
2. A verification of SS has been received from DPA in which case you will use the date provided on the verification, i.e., "EE has 166 months of SS effective 8/30/04". You will post a BB of 166 for the 09/04 leave period.
3. State Service is "Out-of-Service".

Common conditions that result in State Service Out-Of-Service:

1. Employee is new to the CLAS.
2. Begin Balance, Purge Balance or Conversion Balance was voided.
3. Employee becomes ineligible to be on CLAS (e.g., a Separation PAR was keyed - refer to the P18-Employee Position History Inquiry screen).

Sources that will indicate State Service is Out-Of-Service

1. CLAS screens
2. LAB Report
3. Earnings Statement
4. Leave Error Messages

To post a Begin Balance:

1. Access the S50-State Service Transaction Entry screen for the appropriate leave period.
2. Key BB next to SS and enter the number of months the employee has at the beginning of the leave period.
   - For Positive Employees, include 'carryover' hours in the 'Hours' field.
   - For Fractional month Employees, include 'carryover' fractional month credit in the 'Fractional Month' field or remove any fractional month credit that should not be used in the begin balance.

Voiding the Begin Balance, Purge Balance, or Conversion Balance

You may need to correct an employee's state service record by voiding a Begin Balance, Purge Balance or Conversion Balance. If so, you will always use the transaction code BB to key a new Begin Balance after voiding.

➢ Using the S52 - SS Void Transaction Entry screen, key "v" next to the incorrect entry and press enter.

➢ Using the S50 - SS Transaction Entry screen, key a code BB in the "TRANS CODE" field and the correct number of months in the "CREDIT " field.

Retroactivity

After keying or making corrections to the begin balance, you may need to key or make corrections to state service transactions for past months.

➢ Using the S52 - SS Void Transaction Entry screen, key "v" next to any incorrect SS transactions and press enter.

➢ Using the S50 - SS Transaction Entry screen, key the following codes as needed:

CR - Posts a SS Credit for a Full Time employee.

FM - Posts a Fractional Month credit for a Fractional Month employee.

NQ - Posts a Non-Qualifying Leave Period.

HW - Posts hours worked for a Roll Code 3 Intermittent employee.

TH - Posts an adjustment of hours for a Roll Code 3 employee due to a timebase change.

H1 - Posts hours worked in the 1st half of the pay period for a Roll Code 4 hourly, semi-monthly employee.

H2 - Posts hours worked in the 2nd half of the pay period for a Roll Code 4 semi-monthly employee.

BH- Posts an adjustment of hours for a Roll Code 4 hourly, semi-monthly employee due to a timebase change.

LEAVE BENEFITS

The Leave Accounting System currently processes three types of Leave Benefits: Accrued, Earned, and Usage Only.

ACCRUED BENEFITS

The CLAS will automatically post monthly accruals to Accrued benefits that have been designated "active". The establishment period identifies the Leave Periods when the accrued benefit is "active" and is determined by Begin and End Leave Periods. There are only 6 different Accrued Benefits on the CLAS at this time: Annual Leave, Vacation, Personal Holiday, Sick Leave, Educational Leave and Personal Day.

To establish an Accrued type benefit, follow these procedures:

➢ Access the B66 screen from any screen on CLAS. You will also need to specify the Social Security Number and Leave Benefit type that needs to be established.

> ACTN: *B66* SSN: *999 99 9999* LB: *VA*   LV PRD:

➢ On the B66 screen move the cursor to the *BEGIN LV PRD* and key in the month in which the benefit should begin.

> The cursor will now move to the *END LV PRD.* If the benefit should be active then leave this field blank, as 99/99 will be system generated. The 99/99 indicates an "active" benefit and the automated accruals will be posted.

EXAMPLE:

	BEGIN LV PRD	END LV PRD
ESTABLISHMENT PERIOD	09 01	99 99

➢ The current Leave Benefit balances of active Accrued benefits will display on the B10 Leave Benefit Inquiry screen.

➢ If the Establishment Period of an Accrued type benefit has an End Leave Period other than 99/99, the benefit will no longer display on the B10 screen.

➢ The Establishment Period will show an end leave period when the employee transfers to a non-participating department, separates, or when the sick leave benefit reaches a zero balance while the EE is in the AL program.

EXAMPLE:

	BEGIN LV PRD	END LV PRD
ESTABLISHMENT PERIOD	09 01	06 03

➢ Use the B-68 LB Establishment Period Maintenance screen to modify the END LV PRD to 99/99 in order to reopen a leave benefit due to restoring leave credits.

Waiting Periods - Civil Service

Vacation, Personal Holiday, Personal Day and Educational Leave may require a waiting period before the benefit can be used by the employee. A Waiting Period requires Begin and End Leave Periods and an End Date that indicates when the employee is eligible to use their benefits. When adding the Establishment Period on the B66 screen, also add the Waiting Period.

◆ After keying the Establishment Period, move the cursor to the Waiting Period BEGIN LEAVE PERIOD and key in the month in which the waiting period began.

◆ The cursor will move to the *END LEAVE PERIOD*. Key the month the waiting period will end. For waiting periods where the End Leave Period can not be determined (e.g., intermittent employees), key 99/99.

◆ The cursor will move to the *END DATE*. Key the actual date on which the waiting period will end. For waiting periods where the End Date can not be determined (e.g., intermittent employees), key 99/99/99.

EXAMPLE: END DATE CAN BE DETERMINED:

	BEGIN LV PRD	END LV PRD	
WAITING PERIOD	06 03	11 03	END DATE : 12 01 03

EXAMPLE: END DATE CANNOT BE DETERMINED:
(e.g., intermittent employee)

	BEGIN LV PRD	END LV PRD	
WAITING PERIOD	06 03	99 99	END DATE : 99 99 99

Re-Establishing/Updating Leave Benefits

When an employee's accrued benefits have to be re-established due to a break in leave system eligibility the benefit may need to be re-established on CLAS. Use the following screens to update the benefit when applicable:

- ◆ B68 - Leave Benefit Establishment Period Maintenance screen
  (used to add, modify or delete an establishment period)

- ◆ B74 - Leave Benefit Waiting Period Maintenance screen
  (used to add, modify or delete a waiting period)

- ◆ B70 - Non-Standard Rate Maintenance screen
  (used to add, modify or delete a non-standard rate)

- ◆ B76 - Leave Benefit Vacation 10-month Maintenance screen
  (used to add, modify or delete a Vacation 10-month)

NOTE: Use the B50-LB Transaction Entry screen to key a Begin Balance (Code 24) even if the amount is zero.

EARNED BENEFITS

Earned benefits (e.g., CTO, HC, EX) are added to the employee's record as needed by keying transactions such as "Begin Balance" (code 24), & various "Earn" or "Use" codes on the B50-LB Transaction Entry screen. For a complete list of available codes, refer to the "B50-Leave Benefit Transaction Entry" page in the Job Aids section of this workbook. For a list of leave benefits and compatible codes refer to the "Valid Leave Benefit Transactions" page in the Job Aids section of this workbook.

USAGE ONLY BENEFITS

Usage only benefits are used to track time used & are added to the employee's record as needed by keying a Begin Total (code 27), or Use (code 01) transaction on the B50-LB Transaction Entry screen. For a complete list of available codes, refer to the B50-Leave Benefit Transaction Entry page in the Job Aids section of this workbook. For a list of leave benefits and compatible codes refer to the "Valid Leave Benefit Transactions" page in the Job Aids section of this workbook.

NEW TO CLAS

When an employee is appointed in your Department and has no leave history on the Leave Accounting System, there are a number of steps to follow in order to update the CLAS. To determine if the employee has leave history, check the B20 – Leave Benefit List. If there are benefits listed, then proceed to "Previously or Continuing on CLAS". If no benefits display, continue on with this checklist.

Please verify each item of the following check list to determine if the CLAS record is accurate:

✓   View the P18 – Employee Position History Inquiry screen to verify that an Employee Position Record in the current position with an End Date of 99/99/99 exists for the employee.

✓   View the S16-SS Transaction History Inquiry screen to verify that a State Service Begin Balance exists.

✓   View the S16-SS Transaction History Inquiry screen to verify that all the State Service transactions have been posted for months worked.

✓   View the B10-LB Inquiry screen to verify that all accrued benefits have been established.

✓   View the B12-LB Detail Inquiry screen to verify that accrued benefits have waiting periods, vacation 10 month or a non-standard accrual rate as needed.

✓   View the B16 screen to verify that begin balance/total transactions have been posted for all benefits with balances greater than zero as of the date of appointment.

✓   View the B16 screen to verify that attendance transactions for accrued, earned and usage only benefits have been posted for all months as needed.

For more information/instructions, refer to "New to CLAS" in the CONDITIONS section of this workbook.

CONTINUING OR PREVIOUSLY ON CLAS

When an employee is appointed in your department and has leave history on the Leave Accounting System, there are a number of steps to follow in order to update the CLAS records.   To determine if the employee has any previous leave history, view the B20 - Leave Benefit List. If there are no benefits listed, then refer to "New to Leave Accounting". If benefits display, continue on with this check list.

Please verify each item of the following checklist to determine if the CLAS record is accurate:

✓   View the P18 - Employee Position History Inquiry to verify that an Employee Position Record in the current position with an End Date of 99/99/99 exists for the employee.

✓   View the S16-SS Transaction History Inquiry screen to verify that a Begin Balance transaction exists.

✓   View the S16-SS Transaction History Inquiry screen to verify that all State Service transactions been posted for months worked.

✓   View the B10-LB Inquiry screen to verify that all accrued benefits have been established.

✓   View the B12-LB Detail Inquiry screen to verify that accrued benefits have waiting periods, vacation 10-month or a non-standard accrual rate as needed.

✓   View the B16-LB Transaction History screen to verify that begin balance/totals have been posted for **all** accrued type benefits even if the balance is zero, and as needed for earned & usage only benefits as of the date of appointment.

✓   View the B16-LB Transaction History screen to verify that all attendance transactions for accrued, earned & usage only benefits have been posted as needed.

For more information/instructions, refer to "Previously or Continuing on CLAS" in the CONDITIONS section of this workbook.

TEMPORARY SEPARATION PROCEDURES

When a PAR is keyed to indicate that an employee is on a Temporary Separation, the Leave Accounting System is updated to suspend State Service & Leave Benefit accruals until another PAR is keyed to end the Temporary Separation. The P64 Non-Accrual Maintenance screen displays the leave periods in which no automated accruals will be posted by the CLAS. In the "Begin Leave Period" the month after the effective date of the PAR will be displayed & in the "End Leave Period" 99/99 will be displayed to indicate an ongoing Temporary Separation. Once a new PAR is keyed to end the Temporary Separation, the CLAS will update the "End Leave Period" with the month prior to the effective date on the PAR. If the effective month on the PAR is non-qualifying, you must indicate that on the PAR in order to prevent accruals for that month.

No automated accruals will be posted by the CLAS in the months displayed on the P64-Non Accrual Maintenance screen. If the employee is entitled to accrue State Service and Leave Benefits while on the temporary separation, please see page 16 for further instructions.

Please verify each item of the following checklist to determine if the CLAS record is accurate:

✔   View the P64 - Leave Benefit Non-Accrual Maintenance screen to verify that the Begin Leave Period equals the month following the month the temporary separation began and the end leave period equals 99/99 if the Temporary Separation is still in effect.

✔   View the P64 - Leave Benefit Non-Accrual Maintenance screen to verify that the End Leave Period equals the month prior to the effective month of the PAR if the employee has returned from the temporary separation.

✔   View the S16-SS Transaction History Inquiry screen to verify that all SS transactions are correct.

✔   View the B16-LB Transaction History Inquiry screen for each active benefit to verify that all leave benefit transactions have been posted as needed.

✔   View the Leave Message System and determine if the message "EE ON TEMP SEP" displays for the employee. (Delete these messages.)

For more information/instructions, refer to in the following pages.

➢ **"EE ON TEMP SEP" message - Access the P64 screen**

◆ If the employee is currently on a temporary separation, delete the message. No additional action necessary.

◆ If the employee is no longer on a temporary separation, access the P64 - Leave System Eligibility Maintenance screen and change the End Leave Period from 99/99 to the actual end leave period of the temporary separation (i.e., employee returned to work 11/02, key 10/02 in the End Leave Period).

◆ If the employee is on a temporary separation but should still accrue benefits, access the P64 – Leave System Eligibility Maintenance screen and key the appropriate end date in the End Leave Period. (i.e. Employee should accrue starting with the 07/02 leave period. Key 06/02 in the End Leave Period).

➢ **Retroactive Conditions**

Determine if there is any retroactivity on the employee's record. Follow the directions below to update State Service and Accrued benefits.

◆ Access the P64 - Leave System Eligibility Maintenance screen and change the End Leave Period from 99/99 to the actual end leave period in which the employee returned from the temporary separation.

◆ Access the S16 - Transaction History screen and determine which Leave Periods need State Service transactions posted.

◆ Access the S50 - State Service Transaction Entry screen and key the appropriate transactions.

◆ Post State Service transactions for those months that are retroactive by using the following chart:

CR - Credits a full State Service Credit (<u>cannot</u> post a CR for fractionals or for intermittents).
FM - Fractional Month Credit
NQ - Non-Qualifying Month
HW - Hours Worked for intermittent employees
TH - Adjustments for roll 3 intermittent employees
H1 - Hours Worked, 1st half (roll 4) hourly, Semi-Monthly intermittent employees
H2 - Hours Worked, 2nd half (roll 4) hourly, Semi-Monthly intermittent employees
BH - Adjustments for roll 4 Semi-Monthly intermittent employees

♦ Access the B16 - Leave Benefit Transaction History Inquiry screens to determine which leave periods should have accruals posted (the accrual leave periods will be the same as the state service leave periods).

♦ Access the B50 - Leave Benefit Transaction Entry screen and post any accruals/bonuses for those leave periods that are retroactive.

NOTE: A State Service Credit must be posted for the leave period prior to posting of a Leave Benefit accrual.

➢ **Employee Entitled to State Service and Leave Benefits While On Temporary Separation**

◆ If it is determined that the employee is entitled to state service and leave benefit accruals while on a temporary separation:

1. If the employee is entitled to state service and leave benefit accruals for the entire period of the temporary separation, then the Temporary Separation Leave Periods can be deleted from the P64-LB Non Accrual Maintenance Screen, and the automated accruals will be posted.

2. If the employee is only entitled to state service and leave benefit accruals for a partial period of the temporary separation, update the Temporary Separation Leave Periods to represent the period not entitled to accruals. (NOTE: The CLAS will not accept a future date).

3. It is also possible to override the information shown on the P64-LB Non Accrual Maintenance Screen and post the accrual transaction(s) manually using the S50-SS Transaction Entry Screen or the B50-LB Transaction Entry Screen.

EARNED BENEFIT TRANSFER PROCEDURE

Some Earned Benefits (HC, CTO, EX/EH) are designated "Employer" benefits and may or may not transfer with an employee to another department. Sometimes the hours are paid to the employee before s/he leaves a department. If an employee's Earned Benefit hours display on the B10 screen at another employer, the system must be updated by you to reflect the hours correctly. First determine if the hours were paid out or allowed to transfer. If the hours are transferring to your department follow the steps below:

♦   View the P18-Employee Position History Inquiry screen to determine the last month the employee worked at the department where the balance is showing.

♦   Using the B50-LB Transaction Entry screen, key a Debit Adjust transaction (HC15) in the amount of the displayed balance for the last leave period the employee worked at the other department. This will create a zero balance at the other department.

♦   Using the B50-LB Transaction Entry screen for the first month of the appointment to your department, key a Begin Balance (HC24) in the same amount which will "transfer" the balance to your department.

If the hours were paid out at the prior department but not posted to the CLAS, follow the steps below:

♦   View the P18-Employee Position History Inquiry screen to determine the last month the employee worked at the department where the balance is showing.

♦   Using the B50-LB Transaction Entry screen, key a Lump Sum (code 37) or a cash out (code 36).

Verify the B10 screen to determine if the benefit balance displays with the correct employer. If B10 is incorrect, void the transactions using the B52 screen and post correctly using B50.

POSITIVE PAID EMPLOYEES

Overview

Most of the CLAS processes for Positive Employees are the same as for Negative Employees.

➢ **Similar Processes**

◆ EPH record is generated automatically by the PAR.

◆ Accrued Benefits must be established.

◆ State Service Begin Balance must be posted.

◆ Screens are the same for updating and inquiry.

◆ Retroactive transactions must be posted on-line.

◆ Employee activity is reflected on the Leave Activity and Balances Report (LAB).

◆ Leave balances can be displayed on the employee's monthly earnings statement.

➢ **Daily Leave Processing (DLP)**

For a Positive Employee on the CLAS, the "Hours Worked" are posted through the Daily Leave Process (DLP) and used to calculate State Service. Selected payments will generate Hours Worked (HW, H1 or H2) transactions when issued for current pay period and one month prior. Those payments are:

.	Regular Pay -	Payment Type 0, Payment Suffix Blank
.	Overtime -	Payment Type 1, Payment Suffix Blank or F
.	Holiday Pay -	Payment Type S, Payment Suffix G and H
.	IDL - Full -	Payment Type 6, Payment Suffix Blank
.	IDL - 2/3 -	Payment Type N, Payment Suffix Blank
.	Disability Supplemental -	Payment Type U, Payment Suffix T, C & N

➢ **State Service for Positive Employees**

In order to qualify for a State Service credit, 160 hours are needed in a leave period. If an Employee works less than 160 hours in a leave period, the hours will be carried forward and used as needed to accumulate 160 hours. The State Service calculation is displayed on the S14-SS History Summary Inquiry. The S16-SS Transaction History Inquiry screen displays transaction description and all hours worked.

NOTE: In case of a Mid-Month time base change, first determine if the employee qualifies in the Negative (FT or FM) position.   If so, void the hours worked in the Positive position and post a SS credit (CR or FM) in the Negative position using the S50-State Service Transaction Entry screen. If not, please refer to the section "Mid-Month time base Adjustments" on page 22.

➢ **Posting a State Service Begin Balance for an Intermittent Employee**

When posting a State Service begin balance for an intermittent employee, include any carryover hours along with the State Service months on the S50-SS Transaction Entry screen. If the carryover hours are not included in the Begin Balance, State Service will not calculate correctly and corrections to the State Service and Leave Benefit accruals may be required.

◆   For employees new to state service a Begin Balance of zero will be posted by the system.

◆   For employees who have previous State Service but need a begin balance posted, key the correct number of State Service months and any carryover hours using the S50-SS Transaction Entry screen.

➢ **Posting Retroactive Hours Worked Transactions**

◆ Access the S50 - State Service Transaction Entry screen. Post an HW, H1or H2 transaction for the amount of time issued.

◆ When a State Service credit is generated by the Daily Leave Processing, (DLP) accruals for Vacation, Sick Leave or Annual Leave will automatically generate. If State Service was posted manually due to retroactivity, the Leave Benefit accruals will also have to be posted.

◆ Access the S14 or S16 screen to verify if the posted hours worked affects any State Service credits.

◆ Compare the information on the S14 or S16 screens to the Leave Benefit accruals. If they DO NOT differ from the State Service credits then no further action is required; if the State Service credits are posted in different months than the accruals for Leave Benefits <u>CONTINUE</u>.

◆ Void the Leave Benefit accruals posted in month(s) where State Service Credits <u>are not</u> posted. CLAS will only let you void one transaction at a time. Use the B52 - LB Void Transaction screen.

◆ Post Leave Benefits accruals for those leave periods where State Service credits <u>are</u> posted. Use the B50 - LB Transaction Entry screen.

➢ **Leave Benefit Accrual Rate Change**

◆ If the amount of State Service for an employee changes due to a retroactive change to State Service, verify that the accruals for Vacation or Annual Leave are posted at the correct accrual rate.

◆ Void the transactions on the B52 - LB Void transaction screen that have the incorrect accrual rate.

◆ Post the new accruals using the B50 - LB Transaction Entry screen.

➢ **Leave Benefit Waiting Periods**

When a Positive employee has a Leave Benefit Waiting Period, in most cases, the End Leave Period cannot be determined. In these cases it is necessary to key 99/99 for the End Leave Period and 99/99/99 for the End Date. Once the End Date is determined, key the End Leave Period and End Date in which the employee's waiting period ends.

◆ When setting up a new employee's Leave Benefits for Vacation and Personal Holiday, a Waiting Period is required, key the Begin Month and Year for the Waiting Period.

◆ For the End Month and Year, it cannot be determined, key 99/99 for the End Leave Period and 99/99/99 for the End Date.

◆ A Management Information Retrieval System (MIRS) report can be requested to determine how many hours the employee has worked. The report ID is INT 003. Give this to your MIRS coordinator and they can run this report for you.

◆ Once the end date is determined, access the B74 screen and Modify the Waiting Period to reflect the End Leave Period and End Date.

◆ Verify the B12 screen to ensure that the benefit characteristics are accurate.

➢ **Multiple Positions**

◆ Check the P18 screen to determine what is the most recent Position History for the employee.

◆ If the employee is accruing in multiple positions, the employee should be tracked manually and made (NLSE) Not Leave System Eligible) using the P62 screen. (See Leave Eligibility section in this workbook).

NOTE: PAR should generate an Employee Position History transaction on CLAS. If no EPH is generated, contact the Leave Accounting Liaison.

➢ **Mid-Month Time base Adjustments**

When an employee is in a roll 3 or 4 position for 11 days or more **AND** in a
full and/or part time position (s) <u>less</u> than 11 days in one Leave Period,
a Time base Adjustment (TH or BH) transaction is required to post the
number of hours worked in the Full and/or Part time position. Please refer to
State Service on page 19 for more information.

Automated Posting of Time base Adjustments

Automated TH/BH transactions will be generated only if the PAR/PPT has been
keyed and:

1)   A "selected" Payment is issued for the current Pay Period or the
       prior Pay Period <u>and</u>

2)   The CLAS Monthly Accrual Cycle has NOT processed.

Whenever the system posts a TH or BH transaction on CLAS, message
#989484 'VERIFY TH AMOUNT" will be generated on the LMS.

No Automated Posting of Time base Adjustments

When a PAR/PPT with a mid-month time base change is keyed
after the regular pay issues for the pay period in the intermittent
position, no automated TH or BH transaction is generated and
no message is generated on LMS.

When a PAR/PPT mid-month time base change is keyed after
regular pay has issued for the Pay Period of the PAR/PPT
effective date, update CLAS as follows:

1)   Post a TH or BH trans. using the S50-SS Transaction Entry screen.

2)   Void any erroneously posted leave benefit accrual
       transactions using the B52-LB Void Transaction Entry screen.

3)   Key any missing leave benefit accrual transactions using the
       B50-LB Transaction Entry screen.

System Generated TH/BH Transaction Calculations

The number of hours calculated for system generated transactions
is based on the following:

1)   Effective dates of EPH records identified on the P18-Employee
        Position History Inquiry screen.

2)   Number of days possible using a Monday through Friday
        schedule. Hours worked on Saturday/Sunday are not counted.

3)   Hours per day for Full Time employees are based on 8 hours.
        Hours calculated for Part Time employees are based on the
        fractional time base amount of 8 hours.

➢ **Transfer of Funds**

   CLAS does not generate State Service transactions when a Transfer
   of Funds (Clearance Types 6 or 7) is processed in the Payroll
   System.

   The keying of CLAS transactions may be required for the following
   Transfer of Funds:

   ◆   Transfers between Pay Periods (e.g., pay issued for 06/02,
       should be 05/02.

   ◆   Transfers between Roll Codes (e.g., 176 regular hours issued
       should be 22 days).

   ◆   Transfers between payment type (e.g., pay issued as NDI,
       should be IDL or vice versa).

   When a Transfer of Funds is requested which affects the state service
   transactions posted, verify and key the required transactions from the
   procedures below:
   1)   Void any erroneously posted State Service transactions using the S52-
         SS Void Transaction Entry screen.

   2)   Key State Service Transactions, as needed, using the S50-SS
         Transaction Entry screen.

   3)   Verify leave benefit accruals are posted for the same leave periods
         where State Service credits are posted. Comparing the S14-SS
         History Summary Inquiry screen with the B14-LB History Summary
         Inquiry screen.

4)   Void leave benefit accrual transactions that are posted in months where State Service credits <u>are not</u> posted using the B52-LB Void Transaction Entry screen.

5)   Post leave benefit accruals for leave periods where State Service credits <u>are</u> posted using the B50-LB Transaction Entry screen.

6)   When changing State Service information, verify leave periods where the accrual rate for Vacation or Annual Leave may have been impacted. If the accrual rate is incorrect:

    a)   Void the incorrect accrued transaction.
    b)   Post a new accrual transaction.

> **Tracking Intermittent Benefits**

The CLAS system now provides automated tracking of 8 Intermittent Benefits by posting transactions to these benefits based on applicable hours worked. Please refer to the Intermittent Benefits section of this workbook for detailed information, including examples, for each of these 8 benefits as well as for the two existing benefits (Days Limit-ATW & Hours Probation).

SELECTED PAYMENTS

CLAS will automatically post Hours Worked (HW) transactions for payments issued for the current Pay Period or the Pay Period prior to the current Pay Period (e.g. for payment issued May 15, 2002, a HW transaction will be posted for only the current Pay Period, 05/02 or the prior Pay Period, 04/02).

PAYMENT TYPE	PAYMENT SUFFIX	CLEARANCE TYPE ++	ADJUSTMENT CODE*
0 = Regular	Blank	1, *4, *5	0, 1, 3

1 = Overtime
    Time & One Half
    Straight Time
	Blank or F	1, *4, *5	0, 1, 3

S = Holiday Pay
    Planned OT Civil Service
    BU07 & 08
	G & H	1, *4, *5	0, 1, 3

6 = IDL Full	Blank	1, *4, *5	0, 1, 3
N = IDL 2/3	Blank	1, *4, *5	0, 1, 3
U = Disability Supplemental	T, C, N	1, *4, *5	0, 1, 3

++ CLEARANCE TYPES
1 = Payment Issue
4 = Redeposit
5 = Account Receivable

* ADJUSTMENT CODES
0 = Original Pay
1 = Adjustment Time Worked
3 = Adjustment Time & Salary

- Clearance Types 4 and 5 will generate messages on the Leave Message System. Existing transactions will NOT be automatically voided nor will new transactions be generated by the system. Verify the employee's record for accuracy and key voids and/or transactions as needed.

NOTE: Clearance Types 6 and 7 (Transfer of Funds) are NOT selected by the system and DO NOT issue messages on the Leave Message System. When a transfer of funds is requested, verify the employee's record for accuracy and key voids and/or transactions as needed.

USAGE ONLY BENEFIT RESET

Fiscal Year End Reset

The State Controller's Office will automatically reset the total to zero for the following usage only benefits each fiscal year.

Administrative Time off
Bereavement Leave
Continuing Medical Education Leave
Emergency Military Days/Emergency Military Hours
Health/Dental Benefits
Military Days
Military Hours
Paid Educational Leave
Professional Trng/Devel (BU19)
Retirement
Subpoenaed Witness

Calendar Year End Reset

The State Controller's Office will automatically reset the total to zero for the following usage only benefits each calendar year.

Dock
FMLA – Certain BU Contracts
Health/Dental Benefits
Jury Duty
Maximum Hours Worked (Excluding EDD)
Mentor Time off
Professional Trng/Devel (BU02)
Union Time Off

Benefits Not Reset By SCO

Usage Only benefits not listed above must be reset to zero by the department. To reset a usage only benefit to zero, key a Begin Total Transaction (27) with a zero amount using the B50 Leave Benefit Transaction Entry screen (e.g., Seniority Points, Probation Hours, TAU Days Limit, FMLA, Survivor Benefit Donation, & Paid Educational Leave).

NOTE: If a Usage Only benefit is displayed on the B10 screen at a previous employer, the benefit may need to be reset to zero. Use the P18-Employee Position History screen to determine the last month at that employer, & use the B50-Leave Benefit Transaction Entry screen to key a Begin Total Transaction (Code 27) with a zero amount in that month.

BENEFIT DESCRIPTIONS

***NOTE: For determination of Leave Rules refer to the Government Codes, DPA
        Laws and Rules, Bargaining Unit Contracts and the University and
        College Administrative Manual.***

BENEFIT	TYPE	ID	DESCRIPTION
Activist Release Time Bank	Usage Only	AR	A Release Time Bank is an account into which employees may contribute or withdraw leave credits. The hours contributed are used by designated union representatives to conduct official union business. A department can also make contributions into a Release Time Bank.
Administrative Time Off	Usage Only	AT	Used when no statutory authority exists to grant a paid leave of absence. Can also be used to track time for other miscellaneous benefits such as organ and bone marrow donors.
Annual Leave	Accrued	AL	The Annual Leave benefit is in lieu of vacation and sick leave benefits. Annual Leave is an accrued benefit which provides time off with pay at the employee's discretion, with departmental approval.
Bereavement Leave	Usage Only	BL	Authorized leave with pay due to the death of a family member or other person residing in the employee's household at the time of death.
Compensating Time Off	Earned	CT	Paid time off in lieu of cash compensation for authorized time worked in excess of the regularly scheduled workweek (i.e., overtime, travel, etc.)

BENEFIT	TYPE	ID	DESCRIPTION
Continuing Medical Educ.	Usage Only	CM	Time authorized without loss of compensation to attend in-state and/or out-of-state training or continuing education courses to meet professional licensure requirements.
Dock	Usage Only	DK	Used to track time off without pay.
Educational Leave	Accrued	EL	An accrued benefit which provides eligible employees time off with pay to attend schools, colleges, universities, or programs for further instruction in subjects related to work assignment and/or achievement of department goals.
Emergency Military Leave	Usage Only	EM/HE	Emergency leave required to fulfill ordered military duty as an active member of the armed forces of the United States, National Guard or Naval Militia, and for exempt employees, the Reserve Corp.
Excess Hours	Earned	EX/EH	Hours accumulated as a result of an employee working more days or hours in a leave period than that required of normal shift employees. The additional days or hours are due to an employee working other than Monday through Friday work schedule or, for example, a workweek of other than five 8-hour days (e.g., four 10-hour days). Any additional hours worked in a leave period are credited, on an hour for hour basis, as excess hours.

BENEFIT	TYPE	ID	DESCRIPTION
Family Medical Leave Act	Usage Only	FM	FMLA leave may include an employee's serious health condition, for the care of a child, spouse, or parent who has a serious health condition, and/or for the birth or adoption of a child.
Furlough Hours	Earned	FH	Track time earned in the 2009/2010 furlough program in lieu of pay. Time can be used in same pay period earned.
Holiday Credit	Earned	HC	Time off with pay, either earned by an employee working on a holiday or compensation provided to an employee for a holiday falling on a regular day off.
Holiday Informal Time Off	Earned	HI	Time off granted by the Governor for special circumstances (i.e. Holiday Season).
Jury Duty	Usage Only	JD	Time off without loss of compensation for Jury Duty reasons.
Medical Officer of the Day	Earned	MO	Earned by working the MOD shift. MOD assignment is defined as a work shift of fifteen (15) continuous hours or more which is performed in addition to the employees' regularly scheduled workweek.
Mentor Leave	Usage Only	MN	"Mentoring leave" is paid leave time, used by an employee to mentor. Eligible employees receive a set number of hours of "mentoring leave" per calendar year to participate in mentoring activities once they have used an equal amount of their personal time for these activities.

BENEFIT	TYPE	ID	DESCRIPTION
Military Leave	Usage Only	ML/MH	Temporary or indefinite leave required to fulfill ordered military duty as an active member of the armed forces of the United States, National Guard or Naval Militia, and for exempt employees, the Reserve Corp.
Official Union Business	Usage Only	UB	Used to track time off in relation to official union business for Employees in certain Collective Bargaining Units.
On Call Assignment	Earned	OC	On-call assignment is defined as a work-shift of seven (7) consecutive days in which the employee is: (1) available by telephone or electronic paging device at all times; and (2) normally immediately available to return to the facility. On-call assignment shall be in addition to the employee's normal work schedule.
Paid Educational Leave	Usage Only	PE	Certain employees are entitled to a number of hours of educational leave on State time per fiscal year to be used at the employee's discretion subject to operational needs and reasonable advance notice. This leave is noncumulative.
PARR - Lawsuit Settlement	Earned	PA	Employees who were adversely impacted by the issuance of registered warrants in 1992 and, who met the settlement criteria, were entitled to receive leave credits based on the PARR Settlement.
Personal Day	Accrued	PD	Used by Special Schools of the Department of Education. Personal Day is a benefit that provides for up to two (2) days off with pay which is available for use during an academic year.

BENEFIT	TYPE	ID	DESCRIPTION
Personal Holiday	Accrued	PH	A paid day off credited to employees at a specified time for use during the fiscal or calendar year.
Personal Leave Program 2003	Earned	LD	Leave earned in lieu of pay increase. Available for use on the first day of the following pay period.
Personal Leave Program	Earned	PL	Leave earned in lieu of pay. Employees subject to PLP shall be credited with the appropriate number of hours of Personal Leave on the first day of the following monthly pay period
Personal Leave Time	Earned	LT	Used by the Dept. of Youth Authority to track hours granted under the Settlement Agreement and release for U.S. District Court case #CIV-S-94-0153 EJG-GGH, Moore vs. State of California.
Probationary Hours	Usage Only	HP	Used to track intermittent hours for probationary periods.
Professional Leave	Earned	PR	A paid day off credited to employees in lieu of reimbursement for bar dues.
Professional Training/Development	Usage Only	PT	Specific employees are entitled to a number of days of Professional Training per fiscal. Professional education is designed to increase an employee's professional growth and job-related development; to maintain or obtain required professional licensure, certification or registration; to maintain good standing for chaplains; or to increase an employee's job proficiency.

BENEFIT	TYPE	ID	DESCRIPTION
Seniority Points	Usage Only	SP	Used to track seniority for purposes of layoff, transfer in lieu of layoff, and demotion in lieu of layoff.
Sick Leave	Accrued	SL	An accrued benefit which provides time off with pay due to illness, injury, to care for ill or injured family members, death of a family member, dental, eye or other physical or medical examination or treatment by a licensed practitioner.
Subpoenaed Witness	Usage Only	SW	Used to track usage for testimonies at arbitration's, State Personnel Board (SPB), Public Employment Relations Board (PERB), or Legislative hearings.
Survivor Benefit Donation	Usage Only	SB	Used to track leave donated to the leave bank of a deceased employee.
TAU - Days Limit	Usage Only	DL	Used to track intermittent hours toward the 194-day maximum.
Union Conference/Training	Usage Only	UC	Used to track time when employees are attending union conferences or training.
Union Paid Leave	Usage Only	UL	Used to track time used by employees and paid for by the union.
Union Time Off	Usage Only	UT	Authorized Leave with pay, without loss of compensation, for designated union representatives for representational purposes.
Vacation	Accrued	VA	An accrued benefit which provides time off with pay for use at the employee's discretion, with management approval.
Vacation Bank	Earned	VB	For use by Department of Education, Special Schools. Employees electing the Vacation 10-month plan receive a Vacation Bank at the beginning of each school year.

BENEFIT	TYPE	ID	DESCRIPTION
Voluntary Personal Leave	Earned	PV	Voluntary leave earned in lieu of pay. Employees subject to Voluntary Personal Leave shall be credited with the appropriate number of hours of Voluntary Personal Leave on the first day of the following monthly pay period
V-Time	Earned	VT	Voluntary Time Income Trade-off (V-Time) is a version of Supplemental Time off or is a short term voluntary time base reduction in which an employee trades a percentage of their income for an equivalent number of days or hours off for 6-month or 12-month period.

NLSE - Not Leave System Eligible
Civil Service

Definition   NLSE designations are keyed on CLAS for employees who, due to special circumstances, should not be included on the system.

EXAMPLE: Employee is in multiple/additional positions (multiple Position Sequences) and both positions are subject to State Service and Leave Benefits. CLAS can only process State Service and Leave Benefits for one Position Sequence; therefore, the employee cannot be maintained on CLAS.

How to Key   To designate an employee NLSE use the P62 - Leave System
NLSE   Eligibility Maintenance screen.

Impact of NLSE   When an employee is designated NLSE, **all** PAR transactions will be ignored by CLAS until a "LSE" designation transaction is keyed on the P62 - Leave Eligibility Maintenance screen.

TRACK & FLAG PAR'S FOR EMPLOYEES DESIGNATED NLSE

CLAS ignores **all** PAR transactions processed for ee's designated NLSE. Because the system will not automatically determine eligibility for an employee designated NLSE, Turnaround PAR's should be tracked and flagged to insure that they are reviewed for leave system eligibility each time a PAR trans is documented.

How to Flag   To flag the PAR, note in large RED letters "NLSE" at the top left corner of the PAR.

How to Track   Each time you prepare a PAR for an employee that has been designated NLSE, you must determine if the PAR will change the status of the employee to leave system eligible.

When documenting a PAR that is flagged "NLSE", review the employee's PAR transaction for CLAS eligibility:

● If the employee's circumstances do not change and he/she remains   ineligible, flag the new Turnaround PAR.
● If the PAR transaction will change the employee's circumstances to eligible on CLAS, key a "LSE" designation on the P62 - Leave System Eligibility Maintenance and refer to Workbook procedures in the Processes section regarding Continuing or Previously on CLAS "PAR/PPT Transaction Within Your Dept./Campus - Previously Or Continuing On CLAS".

ACCESSING THE LEAVE MESSAGE SYSTEM (LMS)

Accessing LMS (can only be accessed from the Main Menu)

To access the Leave Message System, key "MSG" in the ACTN field.
See example below:

ACTN: **MSG**   SSN ___ __ ____   LB __   LV PRD ____

Press the **ENTER** key. The Leave Message Agency/Reporting Unit Selection screen will display.

Accessing the Batch Message Inquiry screen

1) From the Leave Accounting Agency/Reporting Unit Selection screen:
   Key an **X** on the left next to the desired agy/unit.

<div align="center">

OR

</div>

   Key in the desired agy/unit numbers in the AGY/UNIT field at the bottom of the screen.

   Press the **ENTER** key. The Leave Message Batch Selection screen will display.

2) From the Leave Message Batch Selection screen:

   Key an **X** on the desired batch of messages.

   Press the **ENTER** key. The Batch Message Inquiry screen will display.

Accessing the Employee Message Inquiry screen

The Employee Message Inquiry screen can be accessed from any of the LMS screens.

Key the desired employee's Social Security Number in the SSN field.

Press the **ENTER** key. The Employee Message Inquiry screen will display.

Screen Movement

To move from one LMS screen to another:

 To access the Employee Message Inquiry, key a Social Security Number in the SSN field, then press the ENTER key.

 To access the Leave Accounting Batch Selection, key an agy/unit in the AGY/UNIT field, then press the ENTER key.

 Press one of the PF keys indicated at the bottom of the screen.

PURGING MESSAGES

Messages can be purged by modifying the purge date using the "Leave Batch Purge Date Modification" screen.

Purging a batch of messages or changing the purge date

1) From the Leave Message Batch Selection screen:

   ♦ Key an **X** on the left next to the desired batch of messages.
   ♦ Press the **PF2** key. The Leave Batch Purge Date Modification screen will display.
   _____

Leave Batch Purge Date Modification Screen

   To modify a "Purge Date":

   ♦ Key an **X** next to the Purge Date to be modified. Press the **ENTER** key.
   ♦ Type the new purge date over existing date. Press the **ENTER** key.

   The screen will reappear displaying the new date. The transaction will reject if the modified purge date is prior to the entry date or greater than 30 days from the date the screen is accessed.

   NOTE: The batch will be purged Close of Business (COB) on the purge date.

Messages can be purged using the "Employee Message Inquiry" screen.

Purging an employee's message

1) From any LMS screen:

   ♦ Key employee's Social Security Number in the SSN field at the bottom of the screen.
   ♦ Press the **ENTER** key. The Employee Message Inquiry screen will display.
   _____

Employee Message Inquiry Screen

To delete a message from the screen:

   ♦ Place an **X** in the field next to the purge date.
   ♦ Press the **PF2** key. The screen will display a verification of action message.
   ♦ Press the **ENTER** key. Message is deleted and a confirmation message will display.

CONDITIONS

New to CLAS

This condition provides instructions regarding an employee who has never been on the CLAS.

To determine if the employee was ever on CLAS, access the B20-LB List screen.

◆ If the screen appears with leave benefits listed, the employee is or was at one time on CLAS. Please refer to the Condition, **" Previously or Continuing on CLAS."**

◆ If no benefits are listed on the B20-LB List screen or message number **981816** "SSN DOES NOT EXIST ON CLAS" appears, follow the procedures below.

View the P18 screen. Is there an Employee Position History (EPH) record with the position number of the new appointment PAR?	
NO	**YES**
Refer to Processes section "Leave System Eligibility", or call the Leave Accounting Liaison at (916) 327-0756.	Proceed to next question.
Does the employee have prior State Service?	
NO	**YES**
The CLAS will generate a Begin Balance transaction of zero if the PAR indicates "No Prior SS". Use S16–SS Transaction History Inquiry screen to verify the Begin Balance transaction. If necessary key a Begin Balance transaction of zero using the S50-SS transaction entry screen with code BB in the "Trans Code" field and 000 in the "SS Credit" field.	Using the S50-SS Transaction Entry screen, key code BB in the "Trans Code" field and the 3 digit number of State Service credits in the "SS Credit" field. If the EE's time base is Fractional, may need to add a carry over fractional amount to this transaction in the "Fract Month" field. - If Positive Pay, may need to add carryover hours to this transaction in the "Hours" field. - If roll code 4 Employee, may need to key hours worked for the first half of the month of appointment. (Continued on next page)

After the BB is keyed, view the S16-SS Transaction History Inquiry screen. If EE has been paid for hours worked in the first half and these hours do not display, use the S50-SS Transaction Entry screen with H1 in the "Trans Code" field and the amount of hours worked in the "Hours" field.

Did the employee miss State Service accruals?   Use the S16-SS Transaction History Inquiry to verify.

NO	YES
Proceed to next question.	Using the S50-SS Transaction Entry screen, key State Service transactions (e.g., CR, FM, NQ, HW, H1, H2, BH, TH) in the "Trans Code" field as needed.

Does the employee need Accrued benefits established (e.g., Vacation, Sick Leave, Annual Leave, Personal Holiday, Education Leave and/or Personal Day)?

NO	YES
Proceed to next question.	1) Using the B66 -LB Add screen, key dates for the establishment period, waiting period, vacation 10-month, & non-standard rate as needed. **NOTE: When establishing both Annual Leave and Sick Leave, Sick Leave must be established first.** 2) Using the B50-LB Transaction Entry screen key transaction code 24 and the amount ONLY if the balance at the beginning of the establishment period is greater than zero.

As of the effective date of the PAR, does the employee have balances for Earned benefits (e.g. HC, CT, EX)?	
NO	**YES**
Proceed to next question.	Using the B50-LB Transaction Entry screen key transaction code 24 for begin balances greater than zero.

As of the effective date of the PAR, does the employee have balances for Usage Only benefits (e.g.,JD, BL, ML)?	
NO	**YES**
Proceed to next question	Using the B50-LB Transaction Entry screen key transaction code 27 and the amount for begin totals greater than zero.

Are benefits being added to CLAS retroactively (i.e., employee was not on CLAS when the automated accrual cycles were run and/or when attendance records were submitted?)	
NO	**YES**
Proceed to next question.	Using the B50-LB Transaction Entry screen key the applicable transactions to update Leave Benefit History:
	1. ACCRUED BENEFITS - Key accrue, use and miscellaneous transactions, as needed.
	2. EARNED TYPE BENEFITS - Key earn, use and miscellaneous transactions, as needed.
	3. USAGE ONLY BENEFITS - Key earn, use and miscellaneous transactions, as needed.

Was Item 715 completed on the PAR?	
NO	**YES**
No action required.	Refer to the condition "Employment History Item 715".

Previously or Continuing on CLAS

A PAR transaction was keyed for an employee in your department who was previously on CLAS or is continuing on CLAS.

On the day after the PAR transaction was keyed, verify the Employee Position History (EPH) records for accuracy using the P18-Employee Position History screen.

View the P18-Employee Position History Inquiry screen. Is there an Employee Position History (EPH) record with the position number of the new appointment PAR?	
NO	**YES**
Refer to Processes section "Leave System Eligibility", or call the Leave Accounting Liaison at (916) 327-0756.	Proceed to next question.
Is the State Service Out of Service? (A message will display on the B10-LB Inquiry screen).	
NO	**YES**
View the S16-SS Transaction History Inquiry and the S14-SS History Summary screens to verify that State Service information is correct.	Using the S50-SS Transaction Entry screen, key a begin balance in the effective month of the new appointment. Key additional State Service transactions as needed (e.g., CR, FM, HW, etc.)

Does the employee need any NEW accrued type benefits added? (e.g., Employee changes CBID and elects Annual Leave). To verify, refer to the B20-LB List screen.

NO	YES
Proceed to next question.	Using the B66-LB Add screen, key the month of the new appointment in the Begin Leave Period & press enter, the system will generate 99/99 as the End Leave Period. Using the B50-LB Transaction entry screen, key accrue, use & miscellaneous transactions as needed.

Was the employee INACTIVE on CLAS prior to this PAR transaction? View the dates on the EPH records listed on the P18 screen. Is there a break in time between the end date of the last position on the EPH record and the beginning date of the new position on the EPH record?

NO	YES
Accrued Benefits • If appropriate, key changes to Leave Benefit Characteristics using the appropriate Maintenance screen: B74-Waiting Period, B70-Non-Std Rate, or B76-Vac 10 month. • If the employee is continuing on CLAS, use the B10-LB Inquiry, B14-LB History Summary & the B16-LB Transaction History screens to verify that all leave information is correct and current. • Key accrue, use & miscellaneous transactions as needed using the B50-LB Transaction Entry screen.	Accrued Benefits If the EPH records show a break covering <u>ONE FULL LEAVE PERIOD OR MORE</u>: • For the employee's accrued type benefits, ADD a new establishment period effective the same Leave Period as the PAR, using the B68-Establishment Period Maintenance screen. (Leave the old Establishment Periods there for historical purposes). **NOTE: When adding both Annual Leave and Sick Leave, Sick Leave MUST be added first.** If the EPH records show a break of <u>LESS than one full Leave Period</u>: • Using the B68-Establishment Period Maintenance screen for the employee's accrued type benefits, MODIFY the END LV PRD to 99/99 of the most recent Establishment period or enter the correct End Leave Period. (continued on next page)

Was the employee INACTIVE on CLAS prior to this PAR transaction? (cont'd)	
	YES • If appropriate, key changes to Leave Benefit Characteristics using the appropriate Maintenance screen: B74-Waiting Period, B70-Non-Std Rate, or B76-Vac 10 month.
NO Earned Benefits 1. Verify balances for earned benefits using the B10-LB Inquiry screen. 2. If a different employer is displayed, determine the last leave period worked at that employer and key a Debit Adjust (code 15), a Cash Out (code 36) or a Lump Sum (code 37) transaction using the B50-LB Transaction Entry screen. 3. Key a new begin balance (code 24) transaction as needed using the B50-LB Transaction Entry screen for the effective month of the current appointment. 4. Key earn, use & miscellaneous transactions as needed using the B50-LB Transaction Entry screen. (continued on the next page)	**YES** Accrued Benefits 1. When new establishment periods are added for Accrued Benefits, key a begin balance transaction (code 24) using the B50-LB Transaction Entry screen even if the amount is zero. 2. Key accrue, use and miscellaneous transactions as needed. Earned Benefits 1. Verify balances for earned benefits using the B10-LB Inquiry screen. 2. If a different employer is displayed, determine the last leave period worked at that employer and key a Debit Adjust (code 15), a Cash Out (code 36) or a Lump Sum (code 37) transaction using the B50-LB Transaction Entry screen. 3. Key a new begin balance (code 24,25,or 26) transaction as needed using the B50-LB Transaction Entry screen for the effective month of the current appointment. 4. Key earn, use & miscellaneous transactions as needed using the B50-LB Transaction Entry screen. (continued on the next page)

Was the employee INACTIVE on CLAS prior to this PAR transaction? (cont'd)

NO	YES
Usage Only Benefits	Usage Only Benefits
1. Verify balances using the B10-LB Inquiry screen. If necessary, key a Begin Total transaction (code 27) using the B50-LB Transaction Entry screen for the effective month of the current appointment, or for the last month worked at the employer displayed on the B10-LB Inquiry screen.	1. Verify balances for usage only benefits using the B10-LB Inquiry screen. If the balances are incorrect (e.g. amount should be zero), key a Begin Total (code 27) transaction using the B50-LB Transaction Entry screen for the effective month of the current appointment or for the last month worked at the employer displayed on the B10-LB Inquiry screen.
2. Key use and miscellaneous transactions as needed using the B50-LB Transaction Entry screen.	2. Key use and miscellaneous transactions as needed using the B50-LB Transaction Entry screen.

Did you complete Item 715 on the PAR?

NO	YES
No action required.	Refer to the condition "Employment History Item 715".

Does the PAR transaction involve a Temporary Separation, (includes Civil Service Non-work Status (9/12, 10/12, 11/12), or 340/341 Non-Payroll Status)?

NO	YES
Proceed to next question.	Verify the data on the P64-LB Non-Accrual Maintenance screen.
	If the data is incorrect, key the appropriate data for the applicable fields, then press the ENTER key.
	OR
	If data should be deleted, erase the field, then press the ENTER key.

Employment History Item 715

When a PAR is keyed or voided with Item 715 completed State Service and Leave Benefits may require corrections. If the PAR is to appoint the employee to a new position, also refer to **" New to CLAS"** or **" Previously or Continuing on CLAS"** within this section.

EMPLOYEE'S LEAVE PERIOD SHOULD BE NON-QUALIFYING	
Condition #1 Transaction keyed with Item 715 Non-Qualifying Leave Period.	
Result BEFORE the CLAS Monthly Accrual Cycle: CLAS will automatically post an NQLP (Non-Qualifying Leave Period) transaction to the employee's State Service record. When the CLAS Monthly Accrual Cycle is run, accruals for State Service and Leave Benefits will not be posted.	AFTER the CLAS Monthly Accrual Cycle: No automated actions will be performed by the system. Continue to next box.
Action BEFORE the CLAS Monthly Accrual Cycle: If applicable, verify and correct accrued benefit characteristics (e.g., extension of Waiting Period using the B74 - Waiting Period Maintenance screen, Non-Standard Rate using the B70 - Non-Standard Rate Maintenance or Vacation 10-Month using the B76-Vacation 10-Month Maintenance screen).	AFTER the CLAS Monthly Accrual Cycle: Key the following on CLAS: 1) For a fractional timebase employee, void the Fract Month (FM) or for a full-time employee, void the State Service Credit (CR) using the S52 - SS Void Transaction Entry screen. 2) Post an NQLP (NQ) transaction using the S50 - SS Transaction Entry screen. 3) Void benefit accruals that were posted based on State Service (e.g., vacation) using the B52 - LB Void Transaction Entry screen.

EMPLOYEE'S LEAVE PERIOD SHOULD BE NON-QUALIFYING (continued)

	AFTER the CLAS Monthly Accrual Cycle (continued): 4) If applicable, verify and correct accrued benefit characteristics (e.g., extension of Waiting Period using the B74 - Waiting Period Maintenance, Non-Std. Rate using the B70 - Non-Standard Rate Maintenance or Vacation 10-Month using the B76 - Vacation 10-Month Maintenance screen).

Condition #2	Correction to original transaction (e.g., A01C) is keyed changing the employee from Qualifying to Non-Qualifying Leave Period.

Result	No automated actions will be performed by the system.

Action BEFORE the CLAS Monthly Accrual Cycle: 1) Key an NQLP (NQ) transaction using the S50 - SS Transaction Entry screen. 2) If applicable, verify and correct accrued benefit characteristics (e.g., extension of Waiting Period using the B74 - Waiting Period Maintenance, Non-Standard Rate using the B70 - Non-Standard Rate Maintenance or Vacation 10 - Month using the B76 - Vacation 10 - Month Maintenance screen).	AFTER the CLAS Monthly Accrual Cycle: 1) For a fractional timebase employee void the Fract Month (FM) or for a full time employee, void State Service Credit (CR) using the S52 - SS Void Transaction Entry screen. 2) Post an NQLP (NQ) transaction using the S50 - SS Void Transaction Entry screen. 3) Void benefit accruals that were posted based on State Service (e.g., vacation) using the B52 - LB Void Transaction Entry screen. If applicable, verify and correct accrued benefit characteristics (e.g., extension of Waiting Period using the B74 - Waiting Period Maintenance, Non-Standard Rate using the B70 - Non-Standard Rate Maintenance or Vacation 10-Month using the B76 - Vacation 10 – Month Maintenance screen).

EMPLOYEE'S LEAVE PERIOD SHOULD BE QUALIFYING

Condition #1 Item 715 is completed to Qualify the Pay Period because the effective date of the EH transaction does not reflect the Pay Period as qualifying (e.g., employee works alternate shift).

Result State Service and accrued benefits will not be credited.

Action BEFORE the CLAS Monthly Accrual Cycle:	AFTER the CLAS Monthly Accrual Cycle:
1) During the CLAS Monthly Accrual Cycle, message # 9126 "Cannot determine QEP" is generated. 2) Post Fract Month (FM) for fractional employee or SS Credit CR) for full time employees using the S50 - SS Transaction Entry screen. 3) Post accruals for accrued type benefits using the B50 - LB Transaction Entry screen. 4) Purge the message from the LMS.	1) Post Fract Month (FM) for fractional employee or SS Credit (CR) for full time employees using the S50 - SS Transaction Entry screen. 2) Post accruals for accrued type benefits using the B50 - LB Transaction Entry screen.

Condition #2 Correction to original transaction (e.g., A01C) is keyed changing the employee from Non-Qualifying to Qualifying Leave Period.

Result No automated actions will be performed by the system.

Action BEFORE the CLAS Monthly Accrual Cycle:	AFTER the CLAS Monthly Accrual Cycle:
1) Void the posted NQLP transaction using the S52 - SS Void Transaction Entry screen.	1) Void the posted NQLP transaction using the S52 - SS Void Transaction Entry screen. 2) Post Fract Month (FM) for fractional employee or SS Credit (CR) for full time employee using the S50 - SS Transaction Entry screen.

EMPLOYEE'S LEAVE PERIOD SHOULD BE QUALIFYING (continued)

BEFORE the CLAS Monthly Accrual Cycle (continued):	AFTER the CLAS Monthly Accrual Cycle (continued):
2) If applicable, verify and correct accrued benefits for possible changes to characteristics (e.g., extension of Waiting Period using the B74 - Waiting Period Maintenance, Non-Standard Rate using the B70 - Non- Standard Rate Maintenance or Vacation 10-Month using the B76 - Vacation 10-Month Maintenance screen).	3) Post accruals for accrued type benefits using the B50 - LB Transaction Entry screen. 4) If applicable, verify and correct accrued benefit characteristics (e.g., extension of Waiting Period using the B74 - Waiting Period Main., Non-Std Rate using the B70 - Non-Standard Rate Maintenance or Vacation 10-Month using the B76 - Vacation 10-Month Maint. screen).

Condition #3	Original Item 715 transaction is voided, changing the Leave Period from Non-Qualifying to Qualifying Leave Period.

Result	The CLAS system will automatically void the posted NQLP transaction.

Action BEFORE the CLAS Monthly Accrual Cycle:	AFTER the CLAS Monthly Accrual Cycle: Key the following on CLAS:
If applicable, verify and correct accrued benefit characteristics (e.g., extension of Waiting Period using the B74 - Waiting Period Maintenance, Non-Standard Rate using the B70 - Non-Standard Rate Maintenance or Vacation 10-Month using the B76 - Vacation 10 - Month Maintenance screen).	1) Post Fract Month (FM) for fractional employee or SS Credit (CR) for full time employee using the S50 - SS Transaction Entry screen. 2) Post accruals for accrued type benefits using the B50 - LB Transaction Entry screen. 3) If applicable, verify and correct accrued benefit characteristics (e.g., extension of Waiting Period using the B74 - Waiting Period Maintenance, Non-Standard Rate using the B70 - Non-Standard Rate Maintenance or Vacation 10-Month using the B76- Vacation 10 - Month Maintenance screen).

PAR - Separation Procedures

When a PAR is processed to permanently separate an employee (including Disability Retirements and Lay Offs), the system will recognize that the employee is ineligible and will automatically do the following:

1) Generate an End Date on the Employee Position History Record;

2) Generate Establishment Period End Leave Periods on all accrued benefits (i.e. Vacation, Sick Leave, and Personal Holiday).

3) Place the employee's State Service Record Out-Of-Service for the Leave Period following the separation effective date.

The system does not generate Lump Sum transactions for leave benefits.   Lump Sum payments are generated by the PAR transaction.

Note: It is not necessary to post lump sum transactions to CLAS for accrued benefits. If a lump sum transaction (code 37) is processed for accrued benefits, do not enter the amount as it will be system generated

Have all usage and earned transactions, including hours used or earned in the month of separation, been posted?	
NO	**YES**
Post all usage and earned transactions using the B50-LB Transaction Entry screen.	Proceed to next question.
Does the employee have Earned Benefits with balances?	
NO	**YES**
Proceed to next question.	Key a Lump Sum Transaction (code 37) for each Earned Benefit with a positive balance using the B50-LB Transaction Entry screen.
	For employees with Negative Excess Hours (EH),
	1. Key Credit ADJ (code 14) in the amount of the negative balance.
	2. Key a Use- in lieu of Excess Hours (IE) to another leave benefit.

Does the employee have Usage Only Benefits with totals?	
NO	**Yes**
No action required.	Key a Begin Total Transaction (code 27) with the amount of zero for each benefit using the B50-LB Transaction Entry screen.

PAR - Separation Reversals
(Including A03 after S90)

Refer to the Condition "PAR - Separation Procedures" for information about the CLAS automated processes upon keying a separation PAR.

This condition applies to various situations of reinstatement where the PAR has been voided, deleted, eliminated or an appointment has been keyed (A03 after S90).

On the day after the PAR is processed, verify the EPH records on the P18-Employee Position History screen.

Is the EPH record on the P-18 screen correct?	
NO Refer to Processes section "Leave System Eligibility" or call the Leave Accounting Liaison at (916) 327-0756.	**YES** Proceed to next question.
Is the message "State Service out of Service" displayed on the S16/S14?	
NO Proceed to next question.	**YES** Post a Begin Balance (code BB) transaction using the S50-State Service Transaction entry screen effective the month displayed on the message & additional SS transactions as needed.
For Accrued type benefits, are balances displayed on the B10-LB Inquiry screen?	
NO Determine which Accrued type benefits should be displayed on the B10 screen and use the B68-LB Establishment Period Maintenance screen to modify the establishment period by entering 99 99 in the end leave period field.	**YES** Proceed to next question.
Are the correct balances displayed on the B10-LB Inquiry screen?	
NO Use the B16/B14-LB History screens to determine if all attendance and accruals have been posted. If not, key leave benefit transactions/voids as needed to update the record.	**YES** No action necessary.

Corrections to State Service & Leave Benefits

The system will NOT automatically make changes or corrections to transactions previously posted on CLAS. Changes required due to key errors, attendance changes, or changes to Employment History (via PAR) must be made using the on-line CLAS screens.

Any corrections to the State Service record could potentially affect the Leave Benefit records. For example, changing a Begin Balance transaction could change the accrual rate for Vacation or Annual Leave. Also if an employee is not entitled to a SS credit, s/he is not entitled to a Leave Benefit credit. Compare the State Service record to the Leave Benefit record and make changes as needed.

NOTE: For intermittent employees, also refer to **Positive Pay Employees** in the Processes section of this workbook for information about waiting periods and time base changes.

STATE SERVICE

- View the S14-SS History Summary Inquiry and the S16-SS Transaction History Inquiry to determine if the State Service record needs to be corrected.

- Void the erroneous State Service transaction using the S52-SS Void Transaction Entry screen.

- Key corrected transactions using the S50-SS Transaction Entry screen. The transaction codes are listed in the Job Aids section of this workbook.

LEAVE BENEFIT
Correct leave benefit transactions using the B52-LB Void Transaction Entry screen to void erroneously posted transactions and use the B50-LB Transaction Entry screen to post corrected or new transactions.

EXAMPLE: Attendance was originally submitted and keyed with 40 hours of Vacation usage. Employee was later approved for usage of 32 hours of Vacation and 8 hours of Sick Leave - self.

Transactions required to make corrections are as follows:

1) Void the 40 hour Vacation usage

2) Key a Vacation usage transaction (VA01) for 32 hours.

3) Key a Sick Leave - self usage transaction (SL01) for 8 hours

Attendance Submitted Late

Employee's Attendance Submitted After Monthly Attendance Has Been Keyed
    When attendance is submitted for individual employees after the monthly attendance has been keyed on PIP or processed online, key the transactions online using the B50-LB Transaction Entry screen.

Attendance Omitted From PIP Preloaded Batches
    If the Preloaded PIP batch was previously used without leave accounting transactions, new PIP batches can be copied and used to key leave accounting transactions. To copy batches:

1) Access the Batch Entry (ENT) screen for the preloaded batch assigned to the desired reporting unit for the next Pay Period. (Preloaded batches are usually generated one month prior to use).

2) From the Batch Entry (ENT) screen of the Preloaded batch key the following:
    ACTN: **CPY**   BATCH: SSN: PAY PER: **desired pay period**

3) Press the ENTER key. A new scratch batch will be generated with BATCH STATUS = SAV (save). The batch will have a scratch batch number. Information contained in the batch will be the same as in the original Preloaded Batch, except for the Pay Period, which will reflect the Pay Period requested in the Pay Period field in Step 2.

   CAUTION: If the new copy batch, in which you are keying, contains preloaded time (days or hours) or previously paid Earnings ID's, erase the days, hours and previously paid Earnings ID's before closing the batch.

EXAMPLE: The preloaded batch (Batch # 5000007) for Agency Code 051, Reporting Unit 001 for the 09/95 Pay Period was processed on 10/04/95 with pay requests only. To create another batch to key leave transactions:

1) Access the 10/95 Preloaded batch for Agy-051 Unit-001 (Batch #5054444) as follows:

    ACTN: **ENT** BATCH: **5054444** SSN: PAY PER:

    Press the ENTER key. (Batch Entry screen for Preloaded batch will display.)

2) From the Batch Entry (ENT) screen of the Preloaded batch key the following:
    ACTN: **CPY** BATCH: SSN: PAY PER: **0 09 95**

    Press the ENTER key. (A new scratch batch with the same data as Batch #5054444 will be generated).

RETROACTIVE LEAVE BENEFIT CORRECTIONS AFTER EE HAS CHANGED FROM VA TO AL OR AL TO VA

IF VA OR AL WAS ESTABLISHED IN ERROR OR IN THE WRONG LEAVE PERIOD REFER TO THOSE CONDITIONS IN THIS SECTION OF THE WORKBOOK.

NOTE: IT IS NOT NECESSARY TO MODIFY THE 'ESTABLISHMENT PERIODS' IN ORDER TO KEY THESE CORRECTIONS.

FOLLOW THE STEPS BELOW TO MAKE THE RETROACTIVE CORRECTIONS:

1. Use the B52-LB Void Transaction Entry screen to void the transfer transaction on both benefits (VA & AL) as well as any other incorrect transactions.

2. Use the B50-LB Transaction Entry screen to key all retroactive attendance and accruals as necessary.

3. Use the B14-LB History Summary screen to determine the correct transfer amount.

    NOTE: The 'end balance' should be keyed as the transfer amount from the "old" benefit in one month and the combined amount of the 'end balance' plus the 'credit' should be keyed as the transfer amount to the "new" benefit in the next month.

4. Use the B50-LB Transaction Entry screen to key the correct transfer amounts to both benefits using transaction codes 46 & 47 respectively.

5. Use the B52-LB Void Transaction or the B16-LB Transaction History screen to verify your corrections.

Disability Restoration of
Leave Credits and State Service

The following are the procedures for restoring leave credits and State Service due to disability. In order to maintain accurate records on CLAS, leave credits should be restored in the month where accruals were not posted and/or the employee was originally charged usage.

Restoring State Service Accruals
- If the beginning balance for the first (oldest) Leave Period on CLAS is incorrect, void the Begin Balance transaction using the S52-SS Void Transaction Entry screen and post a new Begin Balance (BB) transaction for the correct amount, using the S50-SS Transaction Entry screen.   - If an NQLP is posted on CLAS for a Leave Period that should be "qualifying", void the NQLP transaction using the S52-SS Void Transaction Entry screen. Post State Service Credit (CR) or Fractional Month (FM) using the S50-Transaction Entry screen.   - For "qualifying" Leave Periods where State Service was not previously posted, post State Service Credit (CR) or Fractional Month (FM) using the S50-Transaction Entry screen.
Restoring Leave Credits For Leave Periods Prior to CLAS

- If the beginning balance for the first (oldest) Leave Period on CLAS is incorrect because it does not reflect restoration of leave credits for prior Leave Periods, do the following for each affected benefit:
 	
     1) Void the Begin Balance transaction using the B52-LB Void Transaction Entry screen.
 	
     2) Post a new Begin Balance transaction for the correct amount, using the B50-LB Transaction Entry screen.

Restoring Leave Benefit Accruals
- If the employee is entitled to accruals that were not posted on CLAS, document accrual transactions for the employee and key the transactions using the B50-LB Transaction Entry screen.

IMPORTANT: When the number of State Service months has increased retroactively, verify the Vacation/Annual Leave accrual rate for subsequent leave periods. CLAS will not automatically void accruals posted to Vacation/Annual Leave.

If the accrual rate is incorrect based on the new amount of State Service months, void the Vacation/Annual Leave accrual(s) using the B52-LB Void Transaction Entry screen, then post an Accrual transaction (VA10/AL10) using the B50-LB Transaction Entry screen.

Disability Transactions		
The following are Disability Transactions that will help track usages, pending disabilities, waiting periods and restoration of time used while on disability.		
Transaction Name	Transaction Type	Purpose
PI	USE-PENDING IDL	To document the usage of leave benefits
PT	USE-PENDING TD	pending IDL or TD disability.
SI	USE-SUPPL IDL	To document the usage of leave benefits
ST	USE-SUPPL TD	for supplemental disability.
SN	USE-SUPPL NDI/SDI	
DW	USE-DISB WAITING PERIOD	To document leave usage for a disability waiting period.
RI	RESTORE-IDL	To credit back hours to a leave benefit
RT	RESTORE-TD	originally posted as a usage.
RN	RESTORE-NDI/SDI	

Catastrophic Leave Transfers

Catastrophic Leave allows employees to transfer eligible leave credits to other employees when a catastrophic event occurs. (Refer to bargaining unit contracts and DPA for regulations regarding catastrophic leave.)

PROCEDURES FOR CATASTROPHIC LEAVE
Catastrophic Leave transfer transactions cannot be keyed on the PIP system. Transfer transactions must be keyed using the B50 - LB Transaction Entry screen. Before documenting and keying Catastrophic Leave transfers, review the following conditions to determine the procedures for your employee(s):
1) Both receiving and donating employees are within your agency and are active on CLAS. ● Key two transfer transactions, one for the receiving employee and the other for the donating employee.
2) Both donating and receiving employees are on CLAS in different agency. ● Keying of transfer transactions must be coordinated between agencies. Each agency must key the appropriate debit or credit transfer transaction for the employee in their agency.
3) One employee, either donating or receiving employee, is not on CLAS. ● Key only the transfer transaction for the employee that is on CLAS.

EMPLOYEE DONATING CREDITS

Process a transfer "TO EE" (code 44) transaction debiting the leave benefit record.

NOTE: PH44 is posted in units. Corresponding Transfer "FROM EE" transaction
(45) is posted in hours.

EXAMPLE: Employee A is donating Personal Holiday (PH) to the Vacation (VA) balance of
Employee B. Document and key the transfer transaction on the B50 - LB
Transaction Entry screen:

TRANS CODE: Document a transaction code "**PH44**".

AMOUNT: Enter **"1"** for one unit of PH.

SSN: Enter SSN for Employee B (receiving employee). If you do not
have access to the employee's SSN, enter 999-99-9999.

LB: Enter Leave Benefit ID "**VA**" (which identifies the benefit to
which the hours are being transferred).

EMPLOYEE RECEIVING CREDITS
Process a transfer "FROM EE" transaction (code 45) crediting the leave benefit record.

EXAMPLE: Employee A is donating her PH to Employee B. Eight hours of credit will be transferred to the vacation balance of Employee B. Document and key the transfer transaction on the B50 - LB Transaction Entry screen.

TRANS CODE: Document a transaction code "**VA45**".

AMOUNT: Enter "**8**" hours to be credited.

SSN: Enter SSN for Employee A (donating employee). If you do not have access to the employee's SSN, enter 999-99-9999.

LB: Enter Leave Benefit ID "**PH**" (which identifies the benefit from which the time was transferred).

NOTE: If the VA benefit of the receiving EE is within a waiting period, follow these special procedures:

1. Use the B74-Waiting Period Maintenance Screen to Delete the WP.

2. Use the B50-LB Transaction Entry Screen to key all transfers and usages of Catastrophic Leave only.

3. Use the B74-Waiting Period Maintenance Screen to add the WP back to the Vacation benefit.

Out-of Service Benefit

An accrued or earned Leave Benefit will be placed Out-of-Service by the Leave Accounting System if a retroactive transaction or void causes a negative balance in a following Leave Period. The Out-of-Service condition must be corrected before additional processing can take place.

The two methods of correcting the condition are: 1) Charge the benefit difference (i.e., the shortage) to another benefit; or 2) Establish an account receivable for the benefit difference.

Determining which method to use is based upon department policy, availability of leave benefit credits and the specific situation.

RESOLVING THE OUT-OF-SERVICE CONDITION
Step 1.　　　Using the B14 - LB History Summary Screen: ◆ Determine/view the Out-of-Service Leave Period. ◆ Identify the transaction that caused the negative End Balance. ◆ Identify the Begin Balance of the Out-of-Service Leave Period. Step 2.　　　Document and Key: ◆ B52 - LB Void Transaction Entry screen. 　● Void the transaction in the Out-of-Service Leave Period which created the negative balance. ◆ B50 - LB Transaction Entry screen. 　● Post a new transaction with an amount equal to the Begin Balance of the Out-of-Service Leave Period. 　● Post a transaction to another benefit equal to the difference. OR Establish an Account Receivable for the Benefit difference.

Vacation/Sick Leave to Annual Leave

Employee, who was accruing Vacation and Sick Leave, elects or is placed in Annual Leave.

Is the Annual Leave benefit being established retroactively (in this situation retroactive means Vacation/Sick Leave transactions have been posted for the Annual Leave Begin Leave Period and subsequent Leave Periods)? Example of retroactive: Annual Leave to be added effective 11/01 Leave Period. Accruals and usage transactions have already been posted for 11/01 and 12/01 Leave Periods.	

NO	YES
Proceed to next question.	Correct the transactions posted to the Vacation and Sick Leave records as follows: Vacation ◆ Void ALL transactions posted for the Annual Leave Begin Leave Period and subsequent Leave Periods using the B52-LB Void Transaction Entry screen. Sick Leave ◆ Void all Sick Leave **ACCRUAL** transactions posted for the Annual Leave Begin Leave Period and subsequent Leave Periods using the B52-LB Void Transaction Entry screen. ◆ If the employee does not have sufficient Sick Leave hours to cover use and/or miscellaneous for the Annual Leave Begin Leave Period or subsequent Leave Periods, void the transactions using the B52-LB Void Transaction Entry screen. Note: Voided use and/or miscellaneous transactions should be posted to Annual Leave, after the benefit is added.

NOTE: PROCESS VACATION AND SICK LEAVE VOIDS BEFORE CONTINUING WITH INSTRUCTIONS.

Has the CLAS Monthly Accrual Cycle and posting of usage or miscellaneous transactions been completed for the Leave Period prior to the Leave Period in which the employee is transferring to Annual Leave? (Example: Employee elects Annual Leave effective 02/01/02. Have accrual, usage and miscellaneous transactions been posted to Vacation benefit for the 01/02 Leave Period?).	
NO	**YES**
Do not add Annual Leave until all accrue, use and miscellaneous transactions have been posted to the Vacation benefit for all leave periods prior to the requested Annual Leave period. After all posting has been completed for the Vacation benefit proceed to next question.	Proceed to next question.

Has Annual Leave ever been established? Access the B20 – LB List screen. If benefit is listed it was previously established.	
NO	**YES**
Using the B66-LB ADD screen, establish Annual Leave.	Use the B68-LB maintenance screen to ADD a new establishment period.

After Annual Leave is added, use the B16-LB Transaction History Inquiry & the B14-LB History Summary screens for Annual Leave (AL) & Vacation (VA) to verify the amount of hours that have been transferred. Is the amount correct?	
NO	**YES**
Correct the transfer:	Proceed to next question.
◆ Void the incorrect transfer(s) using the B52-LB Void Transaction Entry screens.	
◆ Using the B50-LB Transaction Entry screen key the appropriate transactions:	
- AL47 (TRANSFER FR) transaction to transfer time into Annual Leave	
- VA46 (TRANSFER TO) transaction to transfer time out of Vacation.	

Were accrual, use and/or miscellaneous transactions for Vacation or Sick Leave voided because Annual Leave was established retroactive?	
NO	**YES**
No action required.	Key the following transactions for Annual Leave using the B50-LB Transaction Entry screen:
	◆ Key accrual transaction (code 10) for qualifying Leave Periods.
	◆ Key use and miscellaneous transactions in the amount previously posted to Vacation and Sick Leave.
	NOTE: See transactions previously voided per the instructions from the first box on previous page.

Annual Leave To Vacation and Sick Leave

Employee who was accruing Annual Leave, elects or is placed in Vacation and Sick Leave.

Are the Vacation and Sick Leave benefits being established retroactively (in this situation retroactive means Annual Leave transactions have been posted for the Vacation and/or Sick Leave Begin Leave Periods and subsequent Leave Periods)? Example of retroactive: Vacation and Sick Leave to be added effective 02/01 Leave Period. Accruals and usage transactions have already been posted for 02/01 and 03/01 Leave Periods.	
NO	**YES**
Proceed to next question.	Correct the transactions posted to the Annual Leave record as follows: ◆Void ALL Annual Leave transactions posted for the Begin Leave Period and subsequent Leave Periods using the B52-LB Void Transaction Entry screen. **NOTE: Voided use and/or miscellaneous transactions should be posted to Vacation and/or Sick Leave, after the benefits are added.**

Has the CLAS Monthly Accrual Cycle and posting of usage or miscellaneous transactions been completed for the Leave Period prior to the Leave Period in which the employee is transferring to Vacation and Sick Leave? (Example: Employee elects Vacation and Sick effective 02/01/01. Have accrual, usage and miscellaneous transactions been posted to Annual Leave for the 01/01 Leave Period?).	
NO	**YES**
Do not add Vacation and/or Sick until Annual Leave accrual, use and miscellaneous transactions have been posted. After all posting has been completed, proceed to next question.	Proceed to next question.

Has Sick Leave or Vacation ever been established? Access the B20 – LB List screen. If benefit is listed it was previously established.	
NO	YES
Using the B66 – LB Add screen, establish the vacation and sick leave. The Annual Leave balance will automatically transfer to Vacation when the Vacation benefit is added.	1. Use the B68 – LB Maintenance screen for VA to ADD a new establishment period. The Annual Leave balance will automatically transfer to Vacation when the new establishment period for Vacation is entered. 2. Check the B68 for Sick Leave. If benefit is active (shows 99/99 in the end leave period), no action necessary. If the benefit is not ACTIVE, add a new establishment period.

After Vacation Leave is added, access the B16 - LB Transaction History Inquiry screen to verify the amount of hours that have been transferred. Is the amount correct?	
NO	**YES**

Correct the transfer:
 	
◆ Void the incorrect transfer(s) using the B52-LB Void Transaction Entry screens.
 	
◆ Using the B50-LB Transaction Entry screen key the appropriate transactions:
 	
  - VA47 (TRANSFER FR) transaction to transfer time to Vacation Leave
 	
  - AL46 (TRANSFER TO) transaction to transfer time out of Annual Leave
	Proceed to next question.

Is a transfer from Vacation to Sick Leave required? Refer to the bargaining unit contracts.	
NO	**YES**
Proceed to next question.	Determine the number of hours to be transferred and using the B50-LB Transaction Entry screen, transfer the hours into Sick Leave. ◆ Key a VA46 (Transfer To) transaction to transfer hours out of Vacation. ◆ Key a SL47 (Transfer From) transaction to transfer hours into Sick Leave.

Were accrual, use and/or miscellaneous transactions for Annual Leave voided because Vacation/Sick Leave was established retroactive?	
NO	**YES**
No action required.	Key the following transactions for Vacation and Sick Leave using the B50-LB Transaction Entry screen: ◆ Key accrual (code 10) transactions for qualifying Leave Periods. ◆ Key use and miscellaneous transactions in the amount previously posted to Annual Leave. NOTE: Because Annual Leave does not differentiate between use for Vacation or Sick Leave and the various types of Sick Leave use, review the employee's attendance records to determine the types of transactions to be posted to the employee's Vacation and Sick Leave benefits.

Vacation/Sick Leave Established In Error

Refer to the following two conditions to identify the type of error made when Vacation and/or Sick Leave was established:

TYPE #1 - Vacation and/or Sick Leave should NEVER have Been established.

OR

TYPE #2 - Vacation and/or Sick Leave established with the Wrong effective date.

The following information provides procedures for correcting employee records when Vacation and/or Sick Leave was established in error.

TYPE #1-Vacation and/or Sick Leave should NEVER have been established.
If an employee is erroneously established in Vacation and/or Sick Leave and the benefits should never have been established. Step 1: Contact the Leave Accounting Liaison Unit to request to have the benefits deleted as needed. Step 2:   If the Annual Leave benefit was previously established and the End Leave Period is other than 99/99, modify the End Leave Period to 99/99 using the B68-Establishment Period Maintenance screen. Step 3: If applicable, void the Annual Leave Transfer Transaction (TRANSFER TO: VA) using the B52-LB Void Transaction Entry screen. Step 4: Key Annual Leave transactions (e.g, accruals, use, etc.), as needed, using the B50-Transaction Entry screen.

TYPE #2 -   Vacation and/or Sick Leave established with the wrong Begin Leave Period

If Annual Leave does not exist for employee (verify using B20 screen), follow the steps listed below:

STEP 1   Void all transactions posted for the incorrect leave period using the B52 – LB Void Transaction Entry screen.

STEP 2   Modify Begin Leave Period using the B68 – LB Establishment Period Maintenance screen.

STEP 3   Update/modify the Vacation Characteristics, if applicable, using the following screens:

- ◆ B74-Waiting Period Maintenance
- ◆ B70-Non Standard Rate Maintenance
- ◆ B76-Vacation 10-Month Maintenance

STEP 4   Key any missing Vacation and/or Sick Leave transactions (e.g., accruals use, etc.), as needed, using the B50-Transaction Entry screen.

If Annual Leave does exist for employee (verify using the B20 screen), follow the steps listed below:

STEP 1   Void all transactions prior to the correct begin leave period using the B52 – LB Void Transaction Entry screen.

STEP 2   Modify End Leave Period for Annual Leave using the B68 – LB Establishment Period Maintenance screen.

STEP 3   Modify Begin Leave Period for Vacation and Sick Leave using the B68 – LB Establishment Period Maintenance screen.

STEP 4   Update/modify the Vacation Characteristics, if applicable using the following screens:

- ◆ B74-Waiting Period Maintenance
- ◆ B70-Non Standard Rate Maintenance
- ◆ B76-Vacation 10-Month Maintenance

STEP 5   Key any missing Annual Leave, Vacation and/or Sick Leave transactions (e.g., accruals use, etc.), as needed, using the B50-Transaction Entry screen.

Annual Leave Established in Error

Refer to the following two conditions to identify the type of error made when Annual Leave was established:

    TYPE #1 - Annual Leave should NEVER have been established.
OR
    TYPE #2 - Annual Leave established with the wrong effective date.

TYPE #1-Annual Leave should NEVER have been established.

If an employee is erroneously established in Annual Leave and the benefit should have never been established, follow the steps below to delete the Annual Leave Benefit and all transaction history for Annual Leave.

STEP 1   Print data from the B16-LB Transaction History Inquiry for Annual Leave, Vacation and/or Sick Leave.

STEP 2   Contact the Leave Accounting Liaison Unit and request that the Annual Leave benefit be deleted.

STEP 3   If the Vacation benefit was never established, add the benefit using the B66-LB Add screen.

OR

If the Vacation benefit was previously established, modify the End Leave Period to 99/99 using the B68-Establishment Period Maintenance screen.

Update/modify the Vacation Characteristics, if applicable using the following screens:
- ◆ B74-Waiting Period Maintenance
- ◆ B70-Non Standard Rate Maintenance
- ◆ B76-Vacation 10-Month Maintenance

STEP 4   If the Sick Leave benefit was never established, add the benefit using the B66-LB Add screen.

OR

If the Sick Leave benefit was previously established, and the End Leave Period is other than 99/99, modify the End Leave Period to 99/99 using the B68-Establishment Period Maintenance screen.

STEP 5   If applicable, void the Vacation Transfer Transaction (TRANSFER TO: AL) using the B52-LB Void Transaction Entry screen.

TYPE #1 -   Annual Leave should NEVER have been established. (continued)

STEP 6 Key Vacation and Sick Leave transactions (e.g, accruals, use, etc.), as needed, using the B50-Transaction Entry screen.

Note: Because Annual Leave does not differentiate between use for Vacation or Sick Leave and the various types of Sick Leave use, verify the employee's attendance records to determine the types of transactions to be posted to the employee's Vacation and Sick Leave benefits.

TYPE #2 -   Annual Leave established with the wrong effective date.

I. If the employee did not have Vacation previously established, follow the steps listed below:

STEP 1   Using the B52-LB Void Transaction Entry screen, void all Annual Leave transactions.

STEP 2   Using the B68-LB Establishment Period Maintenance screen, modify the begin leave period as necessary.

STEP 3   Using the B50-Transaction Entry Screen Key appropriate Annual Leave transactions.

II. If the employee went from Vacation to Annual Leave in the wrong Leave Period, leave benefit records for Vacation and Sick Leave, as well as Annual Leave must be corrected (i.e., the benefit records must be corrected back to the status previous to Annual Leave). Follow steps listed below:

STEP 1   Using the B52-LB Void Transaction Entry screen void all erroneous Annual Leave Transactions.

STEP 2   Using the B68-LB Establishment Period Maintenance screen delete the establishment period for Annual Leave.

STEP 3   Modify the End Leave Period for Vacation to 99/99 using the B68-Establishment Period Maintenance screen.

TYPE #2 - Annual Leave established with the wrong effective date. (continued)

STEP 4   Update/modify the Vacation Characteristics, if applicable using the following
screens:

- B74-Waiting Period Maintenance
- B70-Non Standard Rate Maintenance
- B76-Vacation 10-Month Maintenance

STEP 5 If applicable, modify the End Leave Period for Sick Leave to 99/99 using the
B68-Establishment Period Maintenance screen.

STEP 6 Void the Vacation Transfer Transaction (TRANSFER TO: AL) using the B52-
LB Void Transaction Entry screen.

STEP 7 Key any missing Vacation and/or Sick Leave transactions (e.g., accruals use,
etc.), as needed, using the B50-Transaction Entry screen.

Note: Because Annual Leave does not differentiate between use for Vacation
or Sick Leave and the various types of Sick Leave use, verify the
employee's attendance records to determine the types of transactions
to be posted to the employee's Vacation and Sick Leave benefits.

STEP 8 Once the employee's Vacation/Sick Leave record has been correctly restored
(using the steps above), re-establish the Annual Leave establishment period
using the B68-LB Establishment Period Maintenance screen.

Cash Out of Personal Leave and Voluntary Personal Leave Hours

On CLAS, hours earned in the Personal Leave Program (PLP) and Voluntary Personal Leave Program (VPLP) are not available for use in the Leave Period in which the hours are earned. For example, if an employee receives 8 hours of VPLP in the 06/01 Leave Period, the 8 hours are not available for use
until the 07/01 Leave Period.

Because the amount earned can not be used/cashed out until the next Leave Period, special procedures must be followed when cashing out PLP and/or VPLP:

I.   Employee is cashing out partial amount <u>OR</u> is cashing out all PLP/VPLP in a Leave Period where she/he is NOT earning PLP/VPLP.   II. Employee is cashing out **all** PLP/VPLP <u>AND</u> the employee is still earning PLP/VPLP in the Leave Period of the cash out.

I. Cash Out partial amount of PLP/VPLP <u>OR</u> Cash Out all hours in a Leave Period where the Employee does not earn PLP/VPLP.   Using the PIP Form 672 or STD. 671, document a Cash Out Transaction for PLP using Earnings ID = PL36 and the number of hours to be cashed out; this Earnings ID will reduce the hours on CLAS and generate pay. For VPLP use Earnings ID = PV36 and the number of hours to be cashed out; you must also key a second Earnings ID (e.g. OT8) to generate pay.

II. Cash Out all PLP/VPLP for an employee who is earning hours in the Leave Period of the Cash Out transaction.
Verify the number of hours to be cashed out by accessing the B14-LB History Summary screen. Were the earned PLP/VPLP hours posted for the month the employee is cashing out the benefit?

NO	YES
1) DO NOT post an earned transaction (PL05 or PV05). Document and key a Balance Adjust transaction* for the PLP (PL14) or VPLP (PV14) equal to the number of hours the employee earned for the month of the cash out.	1) Void the Earned transaction for the Cash Out Leave Period using the B52-LB Void Transaction Entry screen (e.g., earned PLP for the 06/94 Leave Period and is cashing out all PLP effective 06/94 Leave Period. Void the 06/94 Earned transaction.

Verify the number of hours to be cashed out by accessing the B14-LB History Summary screen. Were the earned PLP/VPLP hours posted for the month the employee is cashing out the benefit (Cont)?

2) Key the Balance Adjust transaction (PL14/PV14) using the B50-LB Transaction Entry screen. After updating the transaction, verify the amount in the "Current Balance" field on the B50-LB Transaction Entry screen. 3) Document and key a Cash Out transaction for PLP (PL36) or VPLP (PV36) with the number of hours to be cashed out. For PLP a payment will be generated based on the number of hours keyed. For VPLP a second Earnings ID e.g., OT8) is required to generate pay.	2) Document and key a Balance Adjust transaction using the B50-LB Transaction Entry screen for PLP (PL14) or VPLP (PV14) for the number of hours the employee earned during the month of the cash out (this would be the same number of hours previously voided.) 3) After updating the transaction, verify the amount in the "Current Balance" field on the B50-LB Transaction Entry screen. 4) Document and key a Cash Out transaction for PLP (PL36) or VPLP (PV36) with the number of hours to be cashed out. For PLP a payment will be generated based on the number of hours keyed. For VPLP a second Earnings ID (e.g., OT8) is required to generate pay.

Employee Transfers to a Non-Participating Department

This condition is used when your employee is transferring to a non-participating department

When the appointing PAR is processed at the NON-Participating department the following items are generated:

* EPH End Date
* State Service is set to "Out-of-Service"
* End Leave Period on Accrued Benefits Establishment Periods

The following updates MUST occur before the appointing PAR transaction is processed by the "gaining" (new) department. (Contact the Leave Accounting Liaison if the PAR has already processed.)

Are all attendance transactions (e.g., vacation - use) posted for all Leave Periods while at your department?	
NO	**YES**
Key usage, credit/earn, and miscellaneous transactions using the B50-LB Transaction Entry screen.	No action required

Does the employee have balance for Usage Only benefits?	
NO	**YES**
No action required.	Key a "0" amount Begin Total (code 27) transaction for the last Leave Period at your department using the B50-LB Transaction Entry screen.

Does the employee have balances for Earned benefits which will be transferred to the gaining department (e.g., HC)?	
NO	**YES**
No action required.	Key Debit Adjust (transaction code 15) in the last leave period at your department using the B50-LB Transaction Entry screen.

Does the employee have balances for Earned Benefits which will be cashed-out due to the department transfer (e.g., CTO)?	
NO	**YES**
No action required	Key Cash-out (code 36) transactions using the B50-LB Transaction Entry screen.

Employee Transfers to a Participating Department

For employees transferring from a participating department to your department, following the instructions in condition "PAR Transaction Within Your Department, Previously or Continuing on CLAS". The following updates MUST occur <u>before</u> the appointing PAR transaction is processed by the "gaining" (new) department. (Contact the Leave Accounting Liaison if the PAR has already processed.)

Are all attendance transactions (e.g., vacation - use) posted for all Leave Periods while at your department?	
NO	**YES**
Key usage, credit/earn, and miscellaneous transactions using the B50-LB Transaction Entry screen.	No action required

Does the employee have balances for Earned Benefits which will be cashed-out due to the department transfer (e.g., CTO)?	
NO	**YES**
No action required.	Key Cash-out (code 36) transactions using the B50-LB Transaction Entry screen.

Is the employee on a 10-month, 9/12, 10/12, or 11/12 pay plan?	
NO	**YES**
No action required.	Update the P64 - Non-Accrual Maintenance screen by deleting data displayed in the Non-work Status fields.

Does the employee have a non-standard Accrual Rate established?

NO	YES
No action required.	End the Non-standard Accrual Rate by keying an End Leave Period equal to the last Leave Period where the accrual will be at the non-standard rate, using the B70- Non-Standard Rate Maintenance screen.

Department of Education Only

Is the employee participating in the 10-month Vacation accrual plan?

NO	YES
No action required.	End the 10-month accrual rate by keying an End Leave Period equal to the transfer Leave Period using the B76 - Vacation 10-Month Maintenance screen. Transfer credits remaining in Vacation Bank to Vacation. Using the B50-LB Transaction Entry screen, key a Transfer TO Leave Benefit (code 46) transaction for Vacation Bank with amount equal to transfer Leave Period End Balance, AND, key a Transfer FROM Leave Benefit (code 47) transaction for Vacation with the same amount as the Transfer To transaction (code 46).

Non-Industrial Disability Insurance (NDI) with Supplementation

When an employee is participating in the Annual Leave Program and is placed on NDI, the employee can elect to supplement the NDI payment with leave benefit hours.

The Following are the procedures for processing transactions while the employee elects "NDI - FULL SUPPLEMENTATION" or "NDI - 3/4 SUPPLEMENTATION."

NDI - FULL SUPPLEMENTATION

Follow the steps below whenever an employee elects NDI Full Supplementation.

I. EMPLOYEE IS ENTITLED TO MONTHLY STATE SERVICE AND LEAVE BENEFIT ACCRUALS:

- To allow the employees to accrue State Service and Leave Benefit hours each month access the P64-LB Non Accrual Maintenance screen.

   Erase all data in the "Temporary Separation Begin Leave Period" fields; then, press the ENTER key.

 - If the status of the employee's temporary separation changes and he/she is not entitled to accruals, update the P64-LB NON-ACCRUAL MAINTENANCE screen.

   In the "Temporary Separation Begin Leave Period", key the leave period in which the employee will no longer accrue State Service and Leave Benefits and key 99/99 in the "Temporary Separation End Leave Period" fields; then, press the ENTER key.

II. POSTING SUPPLEMENTAL HOURS USED:

- Calculate the number of leave benefit hours needed to supplement the monetary amount paid by NDI. For calculation instructions refer to the PPM Section E - DISABILITY.

 - When the number of hours to supplement has been determined, key a "Use-NDI Supp" transaction (e.g., ALSN) for the amount of time to be supplemented using the B50-LB Transaction Entry screen.

NDI - 3/4 SUPPLEMENTATION

Follow the steps below whenever an employee elects NDI 3/4 Supplementation

---

I. EMPLOYEE IS ENTITLED TO 1/2 STATE SERVICE AND LEAVE BENEFIT ACCRUALS EACH MONTH:

- CLAS will not allow full time employees to accrue State Service at 1/2 time. To prevent the employee from accruing full State Service credits each month, access the P64-LB NON-ACCRUAL MAINTENANCE screen.

- In the "Temporary Separation Begin Leave Period", key the leave period in which the employee begins accruing State Service at 1/2, and key 99/99 in the "Temporary Separation End Leave Period" fields; then, press the ENTER key.

- This action will stop <u>ALL</u> posting of automated State Service and Leave Benefit accruals.

II. POSTING SUPPLEMENTAL HOURS USED:

- Calculate the number of leave benefit hours needed to supplement the monetary amount paid by NDI to 3/4 salary. For calculation instructions refer to the PPM Section E – Disability.

- When the number of hours to supplement has been determined, key a "Use-NDI SUPP" transaction (e.g., ALSN) for the amount of time to be supplemented using the B50-LB Transaction ENTRY screen.

III. POSTING ACCRUALS FOR STATE SERVICE AND LEAVE BENEFITS:

A) STATE SERVICE ACCRUAL
State Service cannot be posted in fractional increments for full timebase employees. Post a State Service credit (CR) every other month using the S50-SS Transaction Entry screen. If the employee has 1/2 State Service credit in the last month on NDI, the 1/2 credit must be tracked manually.

B) LEAVE BENEFIT ACCRUAL
The employee is entitled to a leave benefit accrual at 1/2 of the employee's monthly accrual rate each month. Because benefit accruals cannot be posted in the months with no State Service credit, a Balance Adjustment Credit transaction must be posted on line each month.

III. POSTING ACCRUALS FOR STATE SERVICE AND LEAVE BENEFITS: (continued)

B) LEAVE BENEFIT ACCRUAL – Continued

Key an Annual Leave Balance Adjustment transaction (e.g., AL14) each month the employee is on NDI - 3/4 Supplementation. The amount will be 1/2 of the number of hours the employee would accrue at full time. Key the Balance Adjustment transaction on the B50-LB Transaction Entry screen.

Important: The hours credited via a Balance Adjustment transaction are NOT credited like accrual transactions where the amount posted for the leave period is not available until the next leave period (e.g., accrual transaction keyed for 05/01 leave period is not subject to debit transactions keyed for 05/01). Amounts posted from a Balance Adjustment transaction are subject to any debit transactions keyed for the same leave period (e.g. Balance Adjustment transaction keyed for 05/01 debit transactions keyed for 05/01 can use time added via the Balance Adjustment transaction).

EXAMPLE OF AN EMPLOYEE SUPPLEMENTING NDI AT ¾

Employee accrues 11 hours of Annual Leave each qualifying pay period. The employee elects to go on NDI - 3/4 Supplementation. This employee would be entitled to 1/2 of his/her monthly accrual rate.

 ❈ NDI is effective 05/10/01. 05/01 is not a qualifying pay period.
 ❈ Returns effective 08/05/01. 08/01 is a qualifying pay period.

STEP 1 - INITIAL MONTH (example for 05/01)

  A) Calculate the number of hours needed to supplement the NDI.
  B) Key the Annual Leave transaction (i.e. ALSN) for the amount of hours to be used to supplement NDI. Key the transaction using the B50-LB Transaction Entry screen.
  C) No State Service transaction is keyed for the first month.
  D) Key an Annual Leave Balance Adjustment for 1/2 of the accrual amount. Key an AL14 for 5.5 hours using the B50-LB Transaction Entry screen. This will be for the accrued hours available 06/01/01. PLEASE be aware that the Balance Adjustment hours do not have the same safe guards as an accrual transaction where the hours cannot be used until the next month. When keying a debit transaction, verify that there are sufficient hours minus the Balance Adjustment to cover the debit transaction.

EXAMPLE OF AN EMPLOYEE SUPPLEMENTING NDI AT ¾ (continued)

STEP 2 - SUBSEQUENT MONTHS ON NDI (06/01 THROUGH 07/01)

A) Calculate the number of hours needed to supplement the NDI.
B) Key an Annual Leave transaction (i.e. ALSN) for each month for the amount of hours to be used to supplement NDI. Key the transactions using the B50-LB Transaction Entry screen.
C) Key a State Service credit (CR) transaction every other month using the S50-SS Transaction Entry screen. Credit is keyed for 06/01 leave period. The 1/2 credit for 07/01 must be tracked manually.
D) Key an Annual Leave Balance Adjustment for 1/2 of the accrual amount for each leave period. Key AL14 for 5.5 hours for the 06/01 and 07/01 pay periods using the B50-LB Transaction Entry screen.

STEP 3 - LAST MONTH ON NDI (08/01)

A) When the last month is a qualifying pay period <u>and</u>

- PAR is keyed BEFORE the CLAS Monthly Accrual Cycle is run.
  1) Verify that the leave periods on P64-LB Non-Accrual Maintenance screen are correct.

- PAR is keyed AFTER the CLAS Monthly Accrual Cycle is run:
  1) Verify that the leave periods on P64LB Non Accrual Maintenance screen are correct.
  2) Key a State Service credit (CR) using the S50-SS Transaction Entry screen
  3) Key an Annual Leave accrual (AL10) using the B50-LB Transaction Entry screen

B) When the last month is NOT a qualifying pay period, indicate the non-qualifying leave period in Item 715 of the PAR.

- If the PAR is keyed BEFORE the CLAS Monthly Accrual Cycle is run:
  1) Verify that the leave periods on P64-LB Non Accrual Maintenance screen are correct.
  2) Verify that an NQLP transaction was posted for the leave period using the S16-SS Transaction History Inquiry.

- If the PAR is keyed AFTER the CLAS Monthly Accrual Cycle is run:
  1) Verify that the leave periods on P64-LB Non Accrual Maintenance screen are correct.
  2) If applicable, void State Service credit (CR) using the S52-SS Void Transaction Entry screen.
  3) If applicable, void Annual Leave accrual using the B52-LB Void Transaction Entry screen.

CRITICAL DATES

Introduction

After your department has completed conversion to CLAS, the ongoing process of maintaining, updating, processing leave records and the timeframes associated with these activities will occur at approximately the same time each month. Listed below are timeframes for processes that will occur each month.

For the specific dates of these, or any future new activities, refer to the "Civil Service Decentralized" calendar or the "CSU Decentralized" calendar.

CLAS Monthly Accrual Cycle

The CLAS Monthly Accrual Cycle is run on approximately the 8th work day each month. This process will post State Service when a negative (Roll Code 1 or 2), bi-weekly (Roll Code 7) or semi-monthly (Roll Code 8) employee has a qualifying leave period. Based on State Service, accruals for Vacation, Sick Leave, Annual Leave and Educational Leave are also posted. It is important to have all PAR/PPT transactions effecting leave eligibility, accruals or non-qualifying pay periods posted by this date.

Personal Holiday Accrual Cycle

On the 2nd work day each month the Personal Holiday Accrual Process will generate and post applicable Personal Holiday credits for employees whose waiting periods end during the month or when identified in bargaining unit contracts.

PLP 2003

In certain Bargaining Units, for Roll codes 1 & 2 the current month credit is posted on the Monday after Master Payroll Cut-off.

For Roll Codes 3, 4, & 8 credit for the prior month is posted on the Monday following the 10th of the current month

Leave Activities and Balances (LAB) Report

The LAB is produced on approximately the 11th work day each month. This report identifies the previous month's transactions and other important information about the employee's current Leave Benefits for purposes of reconciling attendance.

PROCESSING TIMEFRAMES & LEAVE LETTERS

Transaction and EH Processing Timeframes	Four types of processing schedules are used with CLAS. They are Employment History, PIP, the online CLAS and Mag Tape. The system timeframes for processing transactions differ depending on the input method being used.
Employment History	PAR/PPT transactions keyed will process each night, Monday through Friday. Any changes to the Employee Position History records will display the very next day.
PIP	Leave transactions are processed the night of the next available Payroll Cycle. Like PIP pay transactions, when No Payroll Cycle is scheduled, or the cycle is cancelled, transactions will be held until the next cycle is run.
Online CLAS	Transactions keyed online will immediately update CLAS records. Exception: LSE and NLSE online designations will reflect the following day.
Mag Tape	Transactions processed via magnetic tape are processed the night of the next available Payroll Cycle. Like PIP pay transactions, when No Payroll Cycle is scheduled, or the cycle is cancelled, transactions will be held until the next cycle is run.
System Availability	Online keying is available 7:00 AM - 6:00 PM Monday through Friday and 7:00 AM to 4:00 PM on Saturday.
	If extended hours are required for Civil Service departments, refer to the Personnel Action Manual (PAM), Systems Information Section. Twenty-four hours advance notice is required.
Leave Letters	Leave Letters are available on the internet at http://www.sco.ca.gov/ppsd_sco_letters.html

CLAS REPORTS

LEAVE ACTIVITY & BALANCES (LAB) REPORT

Introduction The Leave Activity & Balances (LAB) Report is a system generated report containing Leave Benefit and State Service information for a specific Leave Period. The report contains balances, usage, credits and miscellaneous transactions for Leave Benefits. State Service balance and various other leave impacting information is also identified in this chapter. The LAB is available in two different formats, one with SSN and one without.

Time Frame The LAB is printed once a month around the 11th work day of each month (check the "Civil Service Decentralized" calendar). The report will reflect the Leave Benefit balances/activity and accumulated State Service months for the Leave Period identified in the 4th line of the heading on the LAB. Also identified in the 4th line is the cutoff date for leave data which is reflected on the report. Transactions keyed after this date will not be included on the LAB for that Leave Period but will be reflected on the LAB for the next Leave Period.

Example:

Line 1   State Controller's Office – PPSD
Line 2   Leave Accounting System
Line 3   Leave Activity & Balances Report (LAB)
Line 4   Data For 02/00 Leave Period as Of 03/13/00

In the above example, the balances/totals reflected on the report will include all leave activity posted on CLAS (via online, PIP, magnetic tape and the automated accrual cycles) as of and including 03/13/00.

Print Order The LAB will be printed based on Agency/Reporting Unit/Roll Codes.

Within Agency/Reporting Unit employees will print in the following order:

1) Class Code
2) Serial Number
3) Social Security Number
4) Roll Code

Benefit
Print
Criteria

Benefits will print in the order listed below using the following criteria:

1) Accrued Benefits - will print if the Establishment Period encompasses the LAB Leave Period.

2) Earned Benefits - will print if LAB Leave Period beginning balance is greater than zero or a transaction is posted for the LAB Leave Period.

3) Usage Only Benefits - will print if LAB Leave Period beginning total is greater than zero or a transaction is posted for the LAB Leave Period.

If employee's EH is Out-of-Service, the benefits will not display.

LAB Report
Field
Definitions

This section provides an explanation of the fields printed on the report. The LAB reflects Employment History and Leave transactions keyed as the date in Line 4 of the LAB header:

SSN - Social Security Number

NAME - Initials and Surname

POS SEQ - Position Sequence Number Will print if employee is Out-of-Service

CLASS/ SERIAL - Most current class/serial for the Position Sequence in the Leave Period

CBID - Collective Bargaining Identifier for the position

SS MOS - Provides the number of State Service months as of the end of the Leave Period (e.g., for the LAB Leave Period 08/02, the SS MOS will reflect State Service as of 09/01/02). Will not print if the employee's Employment History is Out-Of-Service, employee is not eligible for State Service or State Service is Out-Of-Service on CLAS.

SS CARRYOVER - Reflects a running balance towards a State Service credit; "DW" displays days worked toward next SS credit. "HW" displays hours worked toward next SS credit. "FM" displays fractional month credit toward next SS credit.

BENEFIT - Displays the name of the benefit.

BEGIN   -   The first "BEGIN" field reflects beginning balances for the Leave Period for all accured/earned benefits and begin totals for the Leave Period for usage only benefits (e.g., the LAB for the 08/01 Leave Period reflects the balance/totals as of 08/01/01).

Included in the BEGIN amounts are the retroactive debit and credit transactions for prior Leave Periods which were keyed during the LAB Leave Period (e.g., LAB Leave Period is 08/01, a "Use" transaction is keyed for 07/01 Leave Period on 08/03/01. The "Use" transaction will be reflected in this "BEGIN" field).

CREDIT   -   Reflects credits from "Accrue" and "Earn" transactions for the LAB Leave Period only. (Transactions for retroactive Leave Periods are reflected in the first "Balance" field.

USED   -   Reflects debits from "Use" transaction for the LAB Leave Period only. (Transactions for retroactive Leave Periods are reflected in the first "Balance" field).

MISC   -   Reflects debits and credits from all transactions other than "Accrue", "Earn" and "Use" for the LAB Leave Period only. (Transactions for retroactive Leave Periods are reflected in the first "BALANCE" field).

BEGIN   -   The second "BEGIN" field reflects the amounts after the "CREDITS", "USED", and "MISC" amounts have been added/deducted to the first "BEGIN" field. These amounts reflect balances and totals available the first day of the next Leave Period (e.g., LAB Leave Period is 08/01, the Balances and Totals are as of 09/01/01).

For benefits debited or credited in other than hours (i.e., days or units), a "D" for days or a "U" for Units will display at the end of the benefit line (right of the second "BEGIN" field).

Messages   Leave Benefits and/or Balances will not display in the following instances and the appropriate message will be printed on the employee's record:

◆   EMPLOYEE OUT-OF-SERVICE

The employee's Employment History is Out-Of-Service. Verify the Employment History records on the PIMS/CSUC system. For information regarding Out-Of-Service, Civil Service agencies may refer to the Personnel Action Manual (PAM), CSU campuses may refer to the Personnel Information Management System (PIMS) Manual. Once Employment History is placed back "In Service", Leave Benefits and State Service information may be viewed on CLAS.

◆   POSITION SEQUENCE OUT-OF-SERVICE

The Position Sequence that is on CLAS is Out-Of-Service on Employment History. For Civil Service contact PPSD, Personnel Liaison. For CSU campuses contact PPSD, CSU Audits.

◆   LEAVE BENEFIT OUT-OF-SERVICE MM/YY

This message will appear next to each benefit that is Out-Of-Service and will identify the Leave Period in which the benefit was placed Out-Of Service. The Out-Of-Service condition must be corrected before additional processing for the benefit can take place (see "LEAVE BENEFITS").

◆   WAITING PERIOD ENDS MM/DD/YY

This message will display for negative paid (Rolls 1 and 2), bi-weekly (Roll 7), and semi-monthly (Roll 8) employees with the Waiting Period End Date next to all benefits that are subject to an active Waiting Period established on CLAS. Balances will not be displayed on the LAB but are available online.

◆ SERVING A WAITING PERIOD

This message will display for positive paid (e.g., Roll Code 3) employees next to all benefits that are subject to an active Waiting Period established on CLAS. Balance will not be displayed on the LAB but are available online.

◆ STATE SERVICE OUT-OF-SERVICE <u>MM</u>/<u>YY</u>

If State Service is Out-Of-Service on CLAS at the time the LAB is run, this message will be displayed for Vacation, Sick Leave, Annual Leave and Education Leave. Also identified is the Leave Period in which State Service was placed Out-Of-Service. Verify and correct the State Service on CLAS(see " STATE SERVICE"). NOTE: The "SS MOS" field will be blank. Note: The "SS MOS" field will be blank.

◆ NO BENEFITS EXIST

This message will display when an employee is on CLAS and benefits have not been established/activated.

LAB Not Received   If a LAB report is lost, print a copy of the report from the View Direct system. If your department does not have View Direct access, contact your Security Monitor.

STATEMENT OF EARNINGS AND DEDUCTIONS

Introduction   The Leave Accounting System will print leave benefit activity and balances on the Statement of Earnings and Deductions each month for Regular Pay (Payment Type 0 – Adjustment Code 0). Only employees who are eligible and on the Leave Accounting System will have their leave benefits display.

Request Procedure   After conversion to the Leave Accounting System, the process of displaying leave benefits on the Statement of Earnings and Deductions can be requested by contacting the Leave Accounting Phone Liaison at (916) 327-0756 or CALNET 467-0756. The request must be made no later than the 12th of the month in which the data is to be displayed.

The following is an example of the timing involved for requesting leave benefits to be displayed on the Statement of Earnings and Deductions.

◆ Leave Accounting Training was provided in the month of 06/00.
◆ Conversion of leave benefits to CLAS in 07/00.
◆ Request for leave data to display on the 8/00 warrant made no later than 8/12.
◆ The above example illustrates the earliest Leave Period that can be requested for displaying the Leave data, (i.e., the Leave Period following the month of conversion).

IMPORTANT:
When redepositing a warrant that was issued prior to requesting leave benefits on the Statement of Earnings and Deductions but after conversion of your department/campus to CLAS, the balances for that month will display when the warrant is reissued. This may result in leave balances displaying for a Leave Period which is prior to the Leave Period originally requested.

Print Criteria   Leave Benefits will display at the bottom of the Statement of Earnings and Deductions for employees who have an original warrant (Adjustment Code 0) for Regular Pay (Payment Type 0).

Roll Code 1 (monthly) employee's statement will reflect activity for the prior month.

Example: The statement for the August warrant dated September 1, 2001 will reflect balances for the 07/01 Leave Period.

Roll Codes 2 & 8 (Semi-monthly) employees statements will print on the 1st half warrant and will reflect activity for the prior month.

Example: The statement for the 1st half warrant dated August 15, 2001) will reflect balances for the 07/01 Leave Period.

Roll Codes 3 & 4 employees statements will reflect all activity for the leave period of the warrant.

NOTE: Roll code 4 data will display only on the 1st half warrant.

Exceptions   Leave Data *will not* print on the Statement of Earnings and Deductions for Summarized Warrants when the warrant includes a payment other than regular pay (Payment Type 0) or a payment with an adjustment code other than 0.

Sort Order of Leave Benefits   Up to **EIGHT** leave benefits can be printed on the Statement of Earnings and Deductions based on a sort order determined by the Leave Accounting System. The leave benefits will print when the following conditions are met:

1) Leave benefit exists
2) An accrued leave benefit is currently established
3) Activity exists for the leave benefit or when earned or usage only balances are greater than zero.

The leave benefits displayed will vary from employee to employee based on each persons eligibility.

The following is the sort order used by the Leave Accounting System to display the leave benefits on the Statement of Earnings and Deductions.

1) Vacation
2) Vacation Bank
3) Annual Leave
4) Sick Leave
5) Personal Holiday
6) Personal Day
7) Educational Leave
8) Personal Leave Program 2003
9) Personal Leave Program
10) Personal Leave Time
11) PARR Lawsuit
12) Voluntary Personal Leave Program
13) V-Time
14) Compensating Time Off (CTO)
15) Holiday Credit
16) Excess Hours
17) Holiday Informal Time Off
18) Holiday CTO
19) Professional Leave
20) Medical Officer of the Day
21) On Call Assignment
22) Jury Duty
23) Subpoenaed Witness
24) Military Leave – Days
25) Military Leave – Hours
26) Emergency Military Leave – Days
27) Emergency Military Leave – Hours
28) Family & Medical Leave Act
29) Professional Training
30) Union Time Off
31) Continuing Medical Education
32) Mentor
33) Maternity/Paternity/Adoption Leave
34) Paid Educational Leave
35) Seniority Points

**Description of
Leave Data on
the Statement**

The following information will display:

    1)   MO/YR BEGIN BALANCE -
        Reflects the beginning balance for the pay period
        displayed.

    2)   CREDIT -
        Identifies the amount of hours earned and
        accruals for the pay period.

*Note: Accrual amounts for Vacation, Sick, Annual Leave and Educ.
       Leave are not available for use until the next pay period.*

    3)   USED -
        Identifies the time used by the employee.

    4)   MISC -
        Identifies adjustments to the employees balances other
        than those listed in the CREDIT and USED columns (e.g.,
        Cash Outs).

    5)   MO/YR BEGIN -
        Reflects the beginning balances for the pay period
        displayed.

The data displayed on the Statement of Earnings and Deductions
will have a one month lag period for negative paid (Roll Code 1 and
2) employees.

EXAMPLE: For the June warrant (issued 7/1) the BEGIN
                BALANCE (1) will reflect 5/1 balances and the BEGIN
                (5) will reflect balances available as of 6/1.

Messages

Certain conditions will result in a message being displayed on the Statement of Earnings and Deductions instead of leave balances.

The following are the messages and conditions which may be displayed on the statement:

"LEAVE DATA UNAVAILABLE"

At least one of the following conditions exists:

- Employee's Leave Benefit is out of service

- Employee's State Service is out of service

"WAITING PERIOD ENDS MM/DD/YY"

- Negative paid (Roll Code 1 and 2), bi-weekly paid (Roll Code 7) or semi-monthly (Roll Code 8) employee is serving a Waiting Period and balances will not display until the Waiting Period has ended.

"SERVING A WAITING PERIOD"

- Positive paid (e.g., Roll Code 3) employee is serving a Waiting Period and balances will not display until the Waiting Period has ended.

EMPLOYEE STATEMENT OF LEAVE INFORMATION - CIVIL SERVICE

Introduction   The Employee Statement of Leave Information (Employee Statement) will be automatically generated annually, unless otherwise requested, for departments participating in the California Leave Accounting System. It serves as a replacement for the Annual Leave Statement (STD. 644 or similar document). The Employee Statement contains benefit balances and year-to-date totals as of the October leave period for a given year .

Use   The Employee Statement is intended for distribution to your employees, allowing them to manually track accruals and usages of their benefits.

Field Definitions   The following information will display in the first box. of employee information:

Name	_	Initials and Surname
SSN	_	Social Security Number
Position Nbr	_	Employee's position number as of the report date
Max Carryover	_	Maximum carryover hours allowed
State Service	_	Total state service credit as of the report date (Will display N/A for CSU academic year psns)
CBID	_	Collective bargaining identifier for the position
Time Base	_	Time base of employee as of the date the report
Accrual Rate	_	The accrual rate of an accrued benefit, based on the employee's time base, CBID and months of state service

Below the employee information are three boxes of benefit information. The box at the left and in the middle contain:

LEAVE TYPE

Identifies the name of the accrued
or earned benefit.

BALANCE

Reflects the balance. If the benefit
is reported in other than hours, the
rate of measure will be printed (i.e.,
Unit or Days).

The box on the right side is used for Usage Only benefits:

LEAVE TYPE

Identifies the name of the Usage
Only benefit and for Emergency
Military Leave or Military leave will
identify unit of measure using Days
or HRS.

BALANCE

Reflects number of hours used in a
calendar year (CYTD) or fiscal
Year (FYTD). If the benefit is not
tracked by calendar or Fiscal year,
the area following the hours/days
will be blank.

Messages   The Employee Statement will display messages whenever an
employee:

► Has projected Vacation or Annual Leave credits that will exceed the
maximum in the calendar year (amounts will also be provided).
► Is scheduled to receive an accrual rate increase during the next
12 months.
► Is at the maximum accrual rate.
► Is serving a waiting period.

The following messages will display in the area under leave benefit
balances:

"LEAVE BENEFIT INFORMATION NOT AVAILABLE"
◆ When the employee or position sequence is out-of-service or when
no benefits are established.
◆ When the Leave Benefit is out-of-service.

"N/A"
◆ State Service information not available on CLAS.

"STATE SERVICE - LEAVE INFORMATION NOT AVAILABLE"
◆ When State Service is out-of-service.

"(LEAVE BENEFIT NAME) WAITING PERIOD ENDS (MM/DD/YY)"
◆ When a fulltime or part-time employee is serving a waiting period.

"(LEAVE BENEFIT NAME) SERVING A WAITING PERIOD"
◆ When a positive paid monthly (Roll Code 3) employee is serving a
  waiting period.

**"YOU WILL EXCEED THE MAXIMUM FOR (LEAVE BENEFIT
NAME) BY (AMOUNT) HOURS ON (MM/DD/YY)"**
◆ For employees who have Leave Benefits that will exceed the limits
  allowed for Janauary 1st.

**"YOUR PROJECTED (LEAVE BENEFIT NAME) ACCRUAL RATE
 CHANGE: IS (AMOUNT) HOURS ON (MM/YY)"**
◆ For full-time and part-time employees that have standard accrual
  rates that are based on State Service. This message will print if the
  Accrual Rate change is in the next 12 leave periods.

**"YOUR (LEAVE BENEFIT NAME) ACCRUAL RATE IS NOT
 SCHEDULED TO CHANGE DURING THE NEXT 12 MONTHS"**
◆ For full-time and part-time employees who will not be changing
  accrual rates (for benefits with rates that are based on State
  Service) within the next 12 leave periods.

**"YOUR (LEAVE BENEFIT NAME) ACCRUAL RATE IS
SCHEDULED TO CHANGE ON (MM/YY)"**
◆ For full-time and part-time employees who have a non-standard
  rate.   This message will print based on State Service if the accrual
  rate change is in the next 12 leave periods.

**"NON-STD RATE - UNABLE TO PROJECT HOURS THAT WILL
 EXCEED (LEAVE BENEFIT NAME) LIMIT"**
◆ For employees accruing based on a non-standard rate.

**"YOU ARE AT THE MAXIMUM ACCRUAL RATE FOR (LEAVE
 BENEFIT NAME)"**
◆ For employees who are currently earning the maximum Accrual
  Rate for benefits.

"UNABLE TO DETERMINE (LEAVE BENEFIT NAME) MAXIMUM OR IF IT WILL BE EXCEEDED"
◆ For CSU positive paid monthly (Roll Code 3) employees, maximum accrual rate and amounts exceeding maximum can not be determined.

"UNABLE TO DETERMINE (LEAVE BENEFIT NAME) HOURS THAT WILL EXCEED MAXIMUM"
◆ For civil service positive paid monthly (Roll Code 3) employees, number of projected hours exceeding maximum can not be determined.

"UPON COMPLETION OF (NUMBER OF CREDITS) STATE SERV MOS THE NEXT (LEAVE BENEFIT NAME) RATE IS (NUMBER OF HOURS)
◆ For positive paid monthly (Roll Code 3) employees will print an accrual rate change if the number of State Service Credits needed is less than 12.

BENEFIT OVER MAX (BOM) REPORT

Introduction	The Benefit Over Max (BOM) Report is a system generated report which contains current balances, accrual rates, hours needed to be used and projected balances for benefits which are anticipated to reach the maximum allowed. It is offered in two versions, one which includes SSN, and one without. The BOM Report is accessed online through View Direct .
Time Frame	The BOM is created once a month around the 13th work day (check the "Civil Service Decentralized" calendars. The report will reflect Leave Benefit balances and Projected balances as of the date identified in the 2nd line of the heading on the BOM. Also identified in the 3rd line is the leave period in which the data was extracted. Transactions keyed after the date shown will not be reflected in the balances on the BOM for that Leave Period but will be reflected on the BOM for the next Leave Period.
Order	The BOM report is sorted by Agency/Reporting Unit. Within each Agency/Reporting Unit employees are sorted by surname.
BOM Report Field Definitions	This section provides an explanation of the fields shown on the The BOM reflects Leave transactions keyed as of the Leave Period shown in Line 3 of the BOM header.

SSN	-	Social Security Number
EMPLOYEE NAME	-	Initials and Surname
BENEFIT NAME	-	Displays name of the benefit
CURR END BALANCE	-	Reflects the current balance as of the Leave period shown in line 3.
CURR ACCR RATE	-	Reflects the employees current Accrual rate
HRS NEED TO USE	-	Reflects the amount of hours the Employee needs to use by the end of the year to stay within the maximum allowed.
PROJ 1/1 BALANCE	-	Reflects the projected balance by 1/1 based on employees accruals.
PROJ ACCR CHG DATE	-	Reflects the date employees accrual rate will change.
PROJ NEW ACCR RATE	-	Reflects the new accrual rate.

Messages   Leave Benefits and/or Balances will not display in the following
                      instances and the appropriate message will be printed on the
                      employees' record:

◆   EE OUT-OF-SVC ON EH

The employee's Employment History is Out-Of-Service.
Verify the employeee's Employment History records on
the PIMS/CSUC system. For information regarding Out-
Of-Service, Civil Service agencies may refer to the
Personnel Action Manual (PAM). CSU campuses may
refer to the Personnel Information Management System
(PIMS) Manual. Once Employment History is placed back
"In Service", leave benefits and/or balances will display.

◆   PSN SEQ OUT-OF-SVC

The Position Sequence that is on CLAS is Out-of-Service
on Employment History. For Civil Service contact PPSD,
Personnel Liaison. For CSU campuses contact PPSD,
CSU Audits.

◆   BENEFIT OUT-OF-SVC

This message will appear when a benefit that is Out-Of-
Service. The Out-of-Service condition must be corrected
before additional processing for the benefit can take
place.

◆   SS OUT-OF-SVC

 If State Service is Out-Of-Service on CLAS at the time
the BOM is run, this message will be displayed. Verify
and correct the State Service information on CLAS.

◆   INT EE CAN'T PROJECT

 Unable to project data for intermittent employees.

◆   TEMP SEP; CAN'T PROJECT

Unable to project data for employees on a temporary
separation.

◆ VAC-10; CAN'T PROJECT
Unable to project data for employees on Vacation 10-Month Plan.

◆ VAC & BANK; CAN'T PROJECT

Unable to project data for employees with Vacation Bank.

◆ 340 STATUS; CAN'T PROJECT

Unable to project data for employees on 340 status.

◆ NON-STD RATE; CAN'T PROJECT

Unable to project data for employees with Non-Standard Rate.

NOTE: Each month when the BOM is run the most current version will overlay the prior month's version.

COMPENSATING TIME OFF AGING REPORT

Introduction   The Compensating Time Off (CTO) Aging Report will be system
generated on a monthly basis for departments having sufficiently aged
CTO. It will list those employees with unused CTO, which was earned
more than 9 months prior to the leave period of the report.

Departments can access the report using ViewDirect.

Time Frame   The CTO Aging Report is created around the 15th work day and will be
available online the following day (check the Decentralized Calendar for
the run date).

**Field
Definitions**   Unused CTO will be displayed by the leave period in which it was
earned. The following information will display:

SSN	-	Social Security Number
NAME	-	Initials and Surname
EMP ID	-	Agency Code where CTO was earned
CLASS/ SERIAL	-	Current Class Code and Serial Number as of the report date
CB ID	-	Collective Bargaining Identifier for the position
LEAVE PERIOD	-	Leave period in which CTO was earned
BALANCE FORWARD	-	May be either the Conversion Balance or Beginning Balance
ENDING BALANCE	-	The available CTO for specific leave periods as of the report date
TOTAL	-	"Balance Forward" amount plus the sum total of "Ending Balance" amounts

REPORT CAPABILITY

Report Capabilities Using MIRS

Effective September 1994, the Management Information Retrieval System (MIRS) contains leave data from the California Leave Accounting System enabling departments to request reports containing Leave Data along with their Employment History and Payroll data. MIRS reports can be designed to have specific information regarding any of the information indicated above. In addition to creating reports, there is also a MIRS library with various types of reports. To request reports using MIRS, contact the MIRS coordinator at your agency. If you do not currently have MIRS and would like to pursue getting the system, contact the MIRS manager at (916) 445-6983.

For those Civil Service departments that have the Management Information Retrieval System (MIRS), your department can now request nine reports to capture intermittent hours for tracking purposes.

Request Procedures

In order to request these reports, contact your MIRS coordinator and provide them with the procedure name you want requested and any information they may need to accurately run the report. Please refer to the following report number(s) and report title when requesting.

INT001 - Health/Dental Eligibility Report

INT002 - Not Eligible for Health/Dental Report

INT003 - Vacation/Personal Holiday Waiting Period

INT004 - Retirements Benefits Eligibility

INT005 - Total Wages Paid for Intermittent Employees

INT006 - Employees Approaching the 1500 Hour Limit

INT007 - TAU-Days Limit

INT008 - Hours Probation

PERS001 - 20, 25, 40 Years of State Service Report

Report Capabilities Using Mark IV

Civil Service and campuses can request reports with leave, payroll and/or Employment History information. These reports have a cost factor based on the type of report. To request more information, contact the Personnel/Payroll Services Division, Data Management Unit at (916) 324-3842.

CLAS WORKSHEETS

Introduction   Three worksheets; the Employee Worksheet, the Accrued Benefits Worksheet and the Transaction Worksheet have been designed to assist you in capturing and documenting data that is required when keying on CLAS. These documents were developed for processing transactions in sequential order with the Employee Worksheet data keyed first (if applicable), the Accrued Worksheet data keyed second and the Transaction Worksheet data keyed last.

Employee Worksheet Information   The Employee Worksheet has two sections. The first section is used to document Leave System eligibility data as it should be entered on the P62 screen. The second section is used to document Non-Accrual information as it should be entered on the P64 screen. There are two versions of these forms, one for Civil Service agencies and one for CSU campuses

When keying a designation (NLSE/LSE) transaction on the P62 - System Eligibility Maintenance screen, DO NOT key other transactions until the following day.

When keying data from the worksheet, key the screens in the order printed on the worksheet.

Key this worksheet first.

Accrued Benefit Worksheet Information   This worksheet is used to document information necessary to accrued benefits. Use this worksheet to document the addition of new benefits as well as maintenance to benefits already established.

Transaction Worksheet Information   The Transaction Worksheet is used to document State and Leave Benefit transaction and voids. Multiple employees can be listed on one document.

This worksheet should be keyed AFTER the Employee Worksheet.

When keying State Service and Leave Benefit transactions for an employee, key the State Service transactions before the Leave Benefit transaction.

EMPLOYEE WORKSHEET
Civil Service

SSN: _____-_____-_____   NAME: _____

CONDITION:

_____

_____

□ P62 - SYSTEM ELIGIBILITY MAINTENANCE   INT. _____   DATE _____

This transaction must be keyed first. Key all other transactions on the following day.

MESSAGES

This portion of the workbook provides information about the messages generated on the Leave Accounting System, including time frames when messages display on the Leave Message System and suggestions on when to work the messages. Included is a listing of all messages in message number order with the condition as to why the message was generated and what course of action to take.

There are two types of messages generated on the Leave Accounting System:

- Messages generated on-line
- Messages generated on the Leave Message System (LMS)

On-Line Messages

On-line messages are generated when keying directly on the on-line screens, e.g., B50 - Leave Benefit Transaction Entry screen. Confirmation messages will be located in the top left of the screen. Informational and/or error messages will be located in the bottom left.

Leave Message System Messages

Messages on the Leave Message System (LMS) are generated by overnight processes and will be identified by the process which generated the message:

PIP	-	Payroll Input Process
DLP	-	Daily Leave Processing
LPR	-	CLAS Monthly Accrual Cycle
MAG	-	Magnetic Tape Process
PHP	-	Personal Holiday Accrual Cycle
EHI	-	Employment History Process
LSE	-	Leave System Eligibility Maintenance (P62)

Accessing the Leave Message System

The Leave Message System can only be accessed from the main menu of the Leave System. Refer to the job aid section of the workbook for specific instructions on accessing the Leave Message System.

Critical Time Frames

To ensure that Leave Balances are correct, it is critical that error messages are worked before they are purged (30 days from the date they are established on LMS). It is very important to work messages before the purge date, as the messages once purged cannot be retrieved. The   following are critical time frames for working the Leave Messages.

- ◆ PIP is one of the primary input sources for the Leave Accounting System. Since PIP does not indicate whether there is an error at the time the data is keyed, it is important that the messages are checked and worked the day after the PIP batches are extracted.

- ◆ LPR (Leave Monthly Accrual Cycle) occurs on the 8th work day of each month. During this process, State Service and leave benefit accruals are posted to the Leave System. A message will be generated if the state service and/or accruals can not be posted. These messages should be worked before the LAB is generated to ensure that the LAB data is correct.

- ◆ DLP is Daily Leave Processing which takes place every time there is a Payroll Cycle and is specifically for Intermittent Employees. In order to ensure that State Service and Leave Benefit accruals have been posted correctly for intermittents, it is important to check messages after intermittent pay has issued. Verify the Leave Message System the day after the PIP batches have been processed.

Purging Leave Messages

Once worked the leave messages should be purged. Messages can be either purged as a group or batch of messages using the Purge Date Modification screen or purged individually by social security number using the Employee Message Inquiry screen.

Refer to the job aid section of the workbook for specific instructions for purging messages.

SUGGESTION: Make a print of the error messages and work off the printout as you will not be able to toggle back and forth between the Leave Accounting System and the Leave Message System. Once the problem is solved, delete the message from the Leave Message System.

MESSAGE LISTING

The following pages contain a list of all messages from both on-line and the Leave Message System (LMS). The list is organized with the following fields:

MESSAGE
NUMBER

Messages are listed in ascending order by the number assigned to the on-line message.

NOTE: The LMS message number is the last 4 digits of the on-line message number. When researching a LMS message, disregard the first two digits on this   listing (e.g., LMS message # is 9465, this message will be listed as 989465).

ON-LINE = O
LMS = L

Because messages are generated on two sources, on-line and LMS, on-line messages are identified with an "O" and LMS messages are identified with a "L". When a message is the same for both on-line and LMS the field will display "O/L".

MESSAGE

In some instances, it is possible for the same error message number to occur on-line and on LMS. The on-line message is displayed first and identified with an "O" in the "ON-LINE = O LMS= L" field. LMS messages are printed after the on-line messages and are identified with a "L". When the condition and/or the action are the same for both on-line and LMS messages, the "ON-LINE = O LMS = L" field will display O/L".

MESSAGE NUMBER	ON-LINE=O LMS=L	MESSAGE
981800	O	**"Making A Selection"**
		Condition: The "ENTER" key was pressed without making a selection or entering data.
		Action: Enter an "X" in a selection field or enter an action code.
981801	O	**"INVALID PRINTER DESTINATION"**
		Condition: Printer identification has not been defined by SCO or a problem as been encountered with printer destinations as defined in the printer table.
		Action: Contact Leave Accounting Liaison.
981802	O	**"PRINT INITIATED ON PRINTER"**
		Condition: Confirmation message. PF12 (print) key pressed.
981803	O	**"INVALID ACTION CODE"**
		Condition: Requested an action code that is not defined to the system.
		Action: Enter a valid action code.
981804	O	**"SSN REQUIRED FOR ACTION CODE"**
		Condition: SSN was not keyed.
		Action: Enter SSN.
981805	O	**"SSN AND BENEFIT REQUIRED FOR ACTION CODE"**
		Condition: SSN and benefit code are required. One or both was not keyed.
		Action: Enter the required data in the highlighted field.
981806	O	**"SSN, BENEFIT AND LEAVE PERIOD REQUIRED FOR ACTION CODE"**
		Condition: SSN, Benefit Code and Leave Period are required. Data is missing in one or more fields.
		Action: Enter the required data in the highlighted field.
981807	O	**"SSN AND LEAVE PERIOD REQUIRED FOR ACTION CODE"**
		Condition: SSN and Leave Period required. One or both was not keyed.
		Action: Enter the required data in the highlighted field.
981808		**"CANNOT BE ACCESSED FROM TRAINING DATABASE"**
981809	O	**"MORE DATA EXISTS"**
		Condition: Screen has more than one page of data.
		Action: Use PF8 (Next) or PF7 (Previous) to access data on other pages.
981810	O	**"STATE SERVICE OUT-OF-SERVICE AS OF MM/YY"**
		Condition: State Service information cannot be displayed due to out-of-service condition. State Service out-of-service for one of the following reasons:
		1. Most current conversion or Begin Balance was voided <u>or</u> employee does not have a conversion or Begin Balance transaction posted
		2. Employee is or was not leave system eligible.
		Action: Set State Service back in service by:
		1. Keying a new Begin Balance transaction.
		2. If employee is not eligible, no action necessary.
981812	O	**"NO STATE SERVICE DATA FOR MM/YY"**
		Condition: Selected a leave period before Employee Position History (EPH) begins or a Leave Period with no State Service information.
		Action: Verify the Leave Period entered.
981814	O	**"CANNOT PAGE BACKWARD"**
		Condition: PF7 (Previous) key pressed and there is no previous page.

		Action: If the employee does not receive a State Service Credit based on the time generated from the state service transaction, no action is necessary. If a State Service Credit is generated based on the payment issued, key leave benefit accrual transactions using the B50-LB Transaction Entry screen.
989488	L	**"SEQ MATCH COND"**
		Condition: When a payment issues in a payroll cycle with a Position Sequence number that differs from the Position Sequence on LAS, the system will <u>not</u> process a time worked (e.g., HW) transaction.
		Action: Employee is/was in multiple positions. Determine if the employee should be on LAS.
		· If the employee should not be on LAS, key an NLSE designation.
		· If the payment was for a position not eligible for State Service, purge the message . No action is required.
		· If the payment is for an intermittent position that is eligible for State Service, key a State Service Transaction (e.g., HW) on the S50 - State Service Transaction Entry Screen.

The CLAS system now provides automated tracking of 8 Intermittent Benefits by posting transactions to these benefits based on applicable hours worked. Detailed information, including examples, is given below for each of the 8 benefits as well as for the two existing benefits (Days Limit – ATW and Hours Probation).

ALTERNATE RANGE CHANGE – 960 HOURS
BENEFIT DESCRIPTION

LEAVE BENEFIT ID: AC

VALID TRANSACTIONS:

Online: Conversion Total (68), Begin Total (27), Work (90), Work Adjust (91), Cancel (35)

PIP: Conversion Total (68), Work (90)

ELIGIBILITY:

The user will be responsible for determining eligibility for each intermittent employee in regards to the Alternate Range Change – 960 benefit. If an employee is working towards an alternate range that requires 6 months (or 960 hours) to be completed, then create the Alternate Range Change – 960 benefit by posting a Begin Total (27) transaction to the AC benefit. The Begin Total may be posted for any amount, including zero. The user should only create either the Alternate Range Change – 960 (AC) or Alternate Range Change - 1920 (AY) benefit, since the employee can only be working towards one alternate range at a time.

UPDATE PROCESS:

The State Controller's Office will update this benefit by automatically posting a Work (90) transaction for every leave period that the employee has State Service Hours Worked. The automated update will occur on the Monday evening following Semi-Monthly Payroll Cutoff and will reference only those State Service Hours Worked posted through the previous Friday. Also, the process:

- Will only update benefits that have been created by posting a Conversion Total (68) or Begin Total (27) transaction. Only departments who are new to CLAS will use the Conversion Total transaction.

- Will post a Work (90) transaction up to 160 hours to the AC benefit.

EXAMPLE OF HISTORY:

An employee has worked the 960 hours required for an Alternate Range Change.

B16

Lv Prd	Post Date	Transaction	Amount	
12/05	12/01/05	Begin Total	100	(Posted by User)
12/05	01/17/06	Work	160	(All Work trans.
01/06	02/14/06	Work	160	posted by SCO)
02/06	03/13/06	Work	160	
06/06	07/17/06	Work	160	
07/06	08/14/06	Work	160	
08/06	09/11/06	Work	160	

B14

Lv Prd	Beg Bal	Used	Earn	Misc	End Bal
12/05	100			160	260
01/06	260			160	420
02/06	420			160	580
06/06	580			160	740
07/06	740			160	900
08/06	900			160	1060

Now that the employee has met the 960 hours required, you will want to post a Work Adjust (91) transaction for the 960 hours that qualified the employee for the alternate range change (which will deduct these hours from the benefit). This transaction should be posted to the leave period in which the employee meets the required hours. Any balance of hours will continue to be counted towards the next alternate range change for 960 hours.

The employee's history will now look like this:

B16

Lv Prd	Post Date	Transaction	Amount	
12/05	12/01/05	Begin Total	100	
12/05	01/17/06	Work	160	
01/06	02/14/06	Work	160	
02/06	03/13/06	Work	160	
06/06	07/17/06	Work	160	
07/06	08/14/06	Work	160	
08/06	09/11/06	Work	160	
08/06	09/12/06	Work Adjust	960-	(Posted by User)

<u>B14</u>

Lv Prd	Beg Bal	Used	Earn	Misc	End Bal
12/05	100			160	260
01/06	260			160	420
02/06	420			160	580
06/06	580			160	740
07/06	740			160	900
08/06	900			-800	100

Since the Work and Work Adjust transactions both display under the Miscellaneous column, the system will add the two amounts together and display the difference of hours.

However, if the new alternate range is tracked for a period of 12 months (or 1920 hours), then you will want to:

1. post a Cancel (35) transaction for 960 hours to the AC benefit for the current leave period.

2. post a Begin Total (27) transaction to the AY benefit for the previous leave period.

See the instructions for the Alternate Range Change – 1920 benefit for an example of the above.

CANCEL TRANSACTION

With the Alternate Range Change benefits, you will want to post a Cancel (35) transaction once the employee:

1. has been appointed to the highest alternate range, or

2. has had an employment history change and is no longer in a classification with alternate ranges.

The Cancel (35) transaction serves a dual purpose:

1. It will prevent further Work transactions from being posted automatically to the ARC - 960 benefit.

2. It will prevent the benefit from being listed on the LAB report (provided the End Balance is zero).

The Cancel transaction must be the last transaction posted to the benefit in order to prevent any subsequent Work transactions from being posted. Therefore, it is recommended that the Cancel transaction always be posted to the current leave period and for the amount of the End Balance. If at any time you want to begin tracking the ARC - 960 benefit again, you will need to post a new Begin Total transaction.

<u>ALTERNATE RANGE CHANGE – 1920 HOURS</u>
<u>BENEFIT DESCRIPTION</u>

<u>LEAVE BENEFIT ID:</u> AY

<u>VALID TRANSACTIONS:</u>

<u>Online:</u> Conversion Total (68), Begin Total (27), Work (90), Work Adjust (91), Cancel (35)

<u>PIP:</u> Conversion Total (68), Work (90)

<u>ELIGIBILITY:</u>

The user will be responsible for determining eligibility for each intermittent employee in regards to the Alternate Range Change – 1920 benefit. If an employee is currently working towards an Alternate Range that requires 12 months (or 1920 hours) to be completed, then create the Alternate Range Change – 1920 benefit by posting a Begin Total (27) transaction to the AY benefit. The Begin Total may be posted for any amount, including zero. The user should only create either the Alternate Range Change – 960 (AC) or Alternate Range Change - 1920 (AY) benefit, since the employee can only be working towards one alternate range at a time.

<u>UPDATE PROCESS:</u>

The State Controller's Office will update this benefit by automatically posting a Work (90) transaction for every leave period that the employee has State Service Hours Worked. The automated update will occur on the Monday evening following Semi-Monthly Payroll Cutoff and will reference only those State Service Hours Worked posted through the previous Friday. Also, the process:

- Will only update benefits that have been created by posting a Conversion Total (68) or Begin Total (27) transaction. Only departments who are new to CLAS will use the Conversion Total transaction.

- Will post a Work (90) transaction up to 160 hours to the AY benefit.

EXAMPLE OF HISTORY:

Example: An employee has worked the 1920 hours required for an Alternate Range Change.

B16

Lv Prd	Post Date	Transaction	Amount	
12/05	12/01/05	Begin Total	960	(Posted by User)
12/05	01/17/06	Work	160	(All Work trans.
01/06	02/14/06	Work	160	posted by SCO)

06/06	1440			160	1600
07/06	1600			160	1760
08/06	1760			160	1920
09/06	1920			1920-	0

If the new alternate range is also for a period of 12 months (or 1920 hours), see the instructions for the Alternate Range Change – 960 benefit for an example of how to post a Work Adjust (91) transaction.

CANCEL TRANSACTION

With the Alternate Range Change benefits, you will want to post a Cancel (35) transaction once the employee:

1. has been appointed to the highest alternate range, or

2. has had an employment history change and is no longer in a classification with alternate ranges.

The Cancel (35) transaction serves a dual purpose:

1. It will prevent further Work transactions from being posted automatically to the ARC - 1920 benefit.

2. It will prevent the benefit from being listed on the LAB report (provided the End Balance is zero).

The Cancel transaction must be the last transaction posted to the benefit in order to prevent any subsequent Work transactions from being posted. Therefore, it is recommended that the Cancel transaction always be posted to the current leave period and for the amount of the End Balance.

If at any time you want to begin tracking the ARC - 1920 benefit again, you will need to post a new Begin Total transaction.

HEALTH AND DENTAL BENEFIT DESCRIPTION

LEAVE BENEFIT ID: HD

VALID TRANSACTIONS:

Online: Conversion Total (68), Begin Total (27), Work (90), Work Adjust (91), Cancel (35)

PIP: Conversion Total (68), Work (90)

ELIGIBILITY:

The user will be responsible for determining eligibility for each intermittent employee in regards to the Health & Dental (HD) benefit. If an employee is in a tenure that makes them eligible for health and dental benefits, then create the Health & Dental benefit by posting a Begin Total (27) transaction to the HD benefit. The Begin Total may be posted for any amount, including zero.

UPDATE PROCESS:

The State Controller's Office will update this benefit by automatically posting a Work (90) transaction for every leave period that the employee has State Service Hours Worked. The automated update will occur on the Monday evening following Semi-Monthly Payroll Cutoff and will reference only those State Service Hours Worked posted through the previous Friday. Also, the process:

- Will only update benefits that have been created by posting a Conversion Total (68) or Begin Total (27) transaction. Only departments who are new to CLAS will use the Conversion Total transaction.

- Will post a Work (90) transaction for the total amount of Actual Hours Worked to the Health and Dental benefit.

BENEFIT RESET:

Since eligibility for health and/or dental benefits is tracked based on the hours worked in the last (or last two) 6-month Control Period(s), the Health & Dental benefit will be reset each January and July. This will prevent the balance from exceeding a 6-month period. Provided the benefit's End Balance is greater than 0 when the process is run in January and July, a Begin Total of zero will be posted to the benefit.

EXAMPLE OF HISTORY:

Example #1: An employee doesn't work 480 hours in the last Control Period, but does work 960 hours in the last two Control Periods.

B16

Lv Prd	Post Date	Transaction	Amount	
01/06	02/01/06	Begin Total	0	(Posted by User)
01/06	02/14/06	Work	176	(All Work trans.
02/06	03/13/06	Work	168	posted by SCO)
03/06	04/17/06	Work	90	
04/06	05/15/06	Work	100	
06/06	07/17/06	Work	100	
07/06	08/14/06	Begin Total	0	(Posted by SCO)
08/06	09/11/06	Work	90	
09/06	10/16/06	Work	168	
10/06	11/13/06	Work	90	
12/06	01/11/07	Work	60	
01/07	01/24/07	Begin Total	0	(Posted by SCO)

B14

Lv Prd	Beg Bal	Used	Earn	Misc	End Bal
01/06	0			176	176
02/06	176			168	344
03/06	344			90	434
04/06	434			100	534
06/06	534			100	634
07/06	0				0
08/06	0			90	90
09/06	90			168	258
10/06	258			90	348
12/06	348			60	408
01/07	0				0

In this example, the December End Balance was not equal to or greater than the 480 hours required for the last Control Period. Therefore, you will want to add the June End Balance together with the December End Balance, and determine if the employee met the 960 hours required in the last two Control Periods (January through December).

No action on the part of the user is necessary in regards to CLAS. The Work transactions will continue to post, and the benefit will continue to be reset every 6 months.

Example #2: An employee doesn't work 480 hours in the last Control Period, but does work 960 hours in the last two Control Periods. Also, the employee does not work in June or December.

B16

01/06	0			176	176
02/06	176			168	344
03/06	344			90	434
04/06	434			100	534
05/06	534			100	634
07/06	0				0
08/06	0			90	90
09/06	90			168	258
10/06	258			90	348
11/06	348			60	408
01/07	0				0

In this example, since the June and December leave periods do not exist, simply add together the End Balances for May and November in order to determine the amount of hours worked over the last 2 Control Periods.

CANCEL TRANSACTION

With the Health & Dental benefit, you will want to post a Cancel (35) transaction if the employee:

1. changes to a full-time or part-time time base, or

2. changes to a tenure that is not eligible for health and dental.

The Cancel (35) transaction serves a dual purpose:

1. It will prevent further Work transactions from being posted automatically to the Health & Dental benefit.

2. It will prevent the benefit from being listed on the LAB report (provided the End Balance is zero).

The Cancel transaction must be the last transaction posted to the benefit in order to prevent any subsequent Work transactions from being posted. Therefore, it is recommended that the Cancel transaction always be posted to the current leave period and for the amount of the End Balance.

If, for some reason, you want to begin tracking the Health & Dental benefit again, you will need to post a new Begin Total transaction.

MAXIMUM HOURS WORKED BENEFIT DESCRIPTION

LEAVE BENEFIT ID: MX

VALID TRANSACTIONS:

Online: Conversion Total (68), Begin Total (27), Work (90), Work Adjust (91)

PIP: Conversion Total (68), Work (90)

There is no Cancel transaction for this benefit, since it is continually tracked for all tenures.

ELIGIBILITY:

Maximum Hours Worked is tracked for all Intermittent employees regardless of tenure. An intermittent employee is not allowed to work more than 1500 hours in a calendar year. However, bargaining unit 06 employees have a higher limit of 2000 hours in a calendar year. Create the Maximum Hours Worked benefit by posting a Begin Total (27) transaction to the MX benefit. The Begin Total may be posted for any amount, including zero.

UPDATE PROCESS:

The State Controller's Office will update this benefit by automatically posting a Work (90) transaction for every leave period that the employee has State Service Hours Worked. The automated update will occur on the Monday evening following Semi-Monthly Payroll Cutoff and will reference only those State Service Hours Worked posted through the previous Friday. Also, the process:

- Will only update benefits that have been created by posting a Conversion Total (68) or Begin Total (27) transaction. Only departments who are new to CLAS will use the Conversion Total transaction.

- Will post a Work (90) transaction for the total amount of Actual Hours Worked to the Maximum Hours Worked benefit.

BENEFIT RESET:

Since Maximum Hours Worked is tracked on a calendar year basis, the Maximum Hours Worked (MX) benefit will be reset to zero each January. Provided the benefit's End Balance is greater than 0 when the process is run in January, a Begin Total of zero will be posted to the benefit. One exception to this is EDD, which does not track the Maximum Hours Worked between January and December, and will not be included in the automatic reset process each January.

EXAMPLE OF HISTORY:

Employee is tracked on a standard calendar year basis.

08/06	736			160	896
09/06	896			168	1064
01/07	0				0

No action on the part of the user is necessary in regards to CLAS. The Work transactions will continue to post, and the benefit will continue to be reset every January.

MSA BENEFIT DESCRIPTION

LEAVE BENEFIT ID: MA

VALID TRANSACTIONS:

Online: Conversion Total (68), Begin Total (27), Work (90), Work Adjust (91), Transfer From LB (47), Cancel (35)

PIP: Conversion Total (68), Work (90)

ELIGIBILITY:

The user will be responsible for determining eligibility for each intermittent employee in regards to the MSA benefit. If an employee is currently working towards an MSA, then create the benefit by posting a Begin Total (27) transaction to the MSA (MA) benefit. The Begin Total may be posted for any amount, including zero. The user should only create either the SISA or MSA benefit, since the employee can only be working towards one or the other.

UPDATE PROCESS:

The State Controller's Office will update this benefit by automatically posting a Work (90) transaction for every leave period that the employee has State Service Hours Worked. The automated update will occur on the Monday evening following Semi-Monthly Payroll Cutoff and will reference only those State Service Hours Worked posted through the previous Friday. Also, the process:

- Will only update benefits that have been created by posting a Conversion Total (68), Begin Total (27), or Transfer From LB (47) transaction. Only departments who are new to CLAS will use the Conversion Total transaction.

- Will post a Work (90) transaction up to 160 hours to the MSA benefit.

EXAMPLE OF HISTORY:

An employee has reached the 1920 hours required for an MSA.

B16

Lv Prd	Post Date	Transaction	Amount	
12/05	12/01/05	Begin Total	1530	(Posted by User)
12/05	01/17/06	Work	160	(All Work trans.
01/06	02/14/06	Work	160	posted by SCO)
02/06	03/13/06	Work	90	

B14

Lv Prd	Beg Bal	Used	Earn	Misc	End Bal
12/05	1530			160	1690
01/06	1690			160	1850
02/06	1850			90	1940

Now that the employee has met the hours required for an MSA, you will want to post a Work Adjust (91) transaction for the 1920 hours that qualified the employee for the MSA. This will subtract the 1920 hours from the MSA benefit, and any remaining hours will be counted towards their next MSA. You will want to post the Work Adjust transaction to the leave period in which they meet the required hours.

The employee's history should now look like this:

B16

Lv Prd	Post Date	Transaction	Amount	
12/05	12/01/05	Begin Total	1530	
12/05	01/17/06	Work	160	
01/06	02/14/06	Work	160	
02/06	03/13/06	Work	90	
02/06	03/14/06	Work Adjust	1920	(Posted by User)

B14

Lv Prd	Beg Bal	Used	Earn	Misc	End Bal
12/05	1530			160	1690
01/06	1690			160	1850
02/06	1850			1830-	20

Since the Work and Work Adjust transactions both display under the Miscellaneous column, the system will add the two amounts together and display the difference of hours.

CANCEL TRANSACTION

With the MSA benefit, you will want to post a Cancel (35) transaction once the employee:

1. has an ANI date of MAX, or

2. has had an employment history change and is now being tracked for a SISA.

The Cancel transaction serves a dual purpose:

1. It will prevent further Work transactions from being posted automatically to the MSA benefit.

2. It will prevent the benefit from being listed on the LAB report (provided the End Balance is zero).

The Cancel transaction must be the last transaction posted to the benefit in order to prevent any subsequent Work transactions from being posted. Therefore, it is recommended that the Cancel transaction always be posted to the current leave period and for the amount of the End Balance.

If at any time you want to begin tracking the MSA benefit again, you will need to post a new Begin Total transaction.

PH/VA WAITING PERIOD
BENEFIT DESCRIPTION

LEAVE BENEFIT ID: WP

VALID TRANSACTIONS:

Online: Conversion Total (68), Begin Total (27), Work (90), Cancel (35)

PIP: Conversion Total (68), Work (90)

ELIGIBILITY:

The user will be responsible for determining whether or not an employee should serve a Waiting Period for the Personal Holiday (PH) or Vacation (VA) benefit, and for what length of time. If the employee is serving a Waiting Period, this benefit may be used to track the hours worked towards the completion of the Waiting Period. The user will need to create the benefit by posting a Begin Total (27) transaction to the PH/VA Waiting Period benefit (WP).

UPDATE PROCESS:

The State Controller's Office will update this benefit by automatically posting a Work (90) transaction for every leave period that the employee has State Service Hours Worked. The automated update will occur on the Monday evening following Semi-Monthly Payroll Cutoff and will reference only those State Service Hours Worked posted through the previous Friday. Also, the process:

- Will only update benefits that have been created by posting a Conversion Total (68) or Begin Total (27) transaction. Only departments who are new to CLAS will use the Conversion Total transaction.

- Will post a Work (90) transaction up to 160 hours to the PH/VA Waiting Period benefit.

MAINTENANCE: Once the employee meets the hours required to complete the Waiting Period, the user will want to:

1. enter an End Leave Period and End Date for the VA and/or PH benefits on B74.

2. post a Cancel transaction to discontinue tracking the PH/VA Waiting Period benefit.

EXAMPLE OF HISTORY:

Employee worked 960 hours required to complete their PH or VA Waiting Period, and benefit was cancelled by user.

B16

Lv Prd	Post Date	Transaction	Amount

12/05	710			160	870
01/06	870			90	960
02/06	960			-960	0

CANCEL TRANSACTION

With the PH/VA Waiting Period benefit, you will want to post a Cancel (35) transaction once the employee successfully completes their Waiting Period(s).

The Cancel (35) transaction serves a dual purpose:

1. It will prevent further Work transactions from being posted automatically to the PH/VA Waiting Period benefit.

2. It will prevent the benefit from being listed on the LAB report (provided the End Balance is zero).

The Cancel transaction must be the last transaction posted to the benefit in order to prevent any subsequent Work transactions from being posted. Therefore, it is recommended that the Cancel transaction always be posted to the current leave period and for the amount of the End Balance.

If, for some reason, you want to begin tracking the PH/VA Waiting Period benefit again, you will need to post a new Begin Total transaction.

RETIREMENT BENEFIT DESCRIPTION

LEAVE BENEFIT ID: RT

VALID TRANSACTIONS:

Online: Conversion Total (68), Begin Total (27), Work (90), Cancel (35)

PIP: Conversion Total (68), Work (90)

ELIGIBILITY:

The user will be responsible for determining eligibility for each intermittent employee in regards to the Retirement (RT) benefit. If an employee is currently in the PST Retirement Plan or YEOP program at EDD, and must work 1000 hours in a fiscal year to be eligible to enter the CalPERS Retirement Plan, then create the Retirement benefit by posting a Begin Total (27) transaction to the RT benefit. The Begin Total may be posted for any amount, including zero.

UPDATE PROCESS:

The State Controller's Office will update this benefit by automatically posting a Work (90) transaction for every leave period that the employee has State Service Hours Worked. The automated update will occur on the Monday evening following Semi-Monthly Payroll Cutoff and will reference only those State Service Hours Worked posted through the previous Friday. Also, the process:

- Will only update benefits that have been created by posting a Conversion Total (68) or Begin Total (27) transaction. Only departments who are new to CLAS will use the Conversion Total transaction.

- Will post a Work (90) transaction for the total amount of Actual Hours Worked to the Retirement benefit.

BENEFIT RESET:

Since the Retirement benefit is tracked on a fiscal year basis, it will be included in the process that resets Usage Only benefits each July. Provided the benefit's End Balance is greater than 0 when the process is run in July, a Begin Total of zero will be posted to the benefit.

EXAMPLE OF HISTORY:

Employee did not meet 1000 hours required and the benefit is reset automatically in July.

B16

Lv Prd	Post Date	Transaction	Amount	
01/06	02/14/06	Conversion Total	0	(Posted by User)

05/06	355		168		523
06/06	523		160		683
07/06	0				0

If the employee did work the 1000 in a fiscal year, then post the Cancel (35) transaction to the current leave period.

CANCEL TRANSACTION

The Cancel (35) transaction serves a dual purpose:

1. It will prevent further Work transactions from being posted automatically to the Retirement benefit.

2. It will prevent the benefit from being listed on the LAB report (provided the End Balance is zero).

The Cancel transaction must be the last transaction posted to the benefit in order to prevent any subsequent Work transactions from being posted. Therefore, it is recommended that the Cancel transaction always be posted to the current leave period and for the amount of the End Balance.

If, for some reason, you want to begin tracking the Retirement benefit again, you will need to post a new Begin Total transaction.

SISA BENEFIT DESCRIPTION

LEAVE BENEFIT ID: SA

VALID TRANSACTIONS:

Online: Conversion Total (68), Begin Total (27), Work (90), Work Adjust (91), Transfer To LB (46), Cancel (35)

PIP: Conversion Total (68), Work (90)

ELIGIBILITY:

The user will be responsible for determining eligibility for each intermittent employee in regards to the SISA benefit. If an employee is currently working towards a SISA, then create the benefit by posting a Begin Total (27) transaction to the SISA (SA) benefit. The Begin Total may be posted for any amount, including zero. The user should only create either the SISA or MSA benefit, since the employee can only be working towards one or the other.

UPDATE PROCESS:

The State Controller's Office will update this benefit by automatically posting a Work (90) transaction for every leave period that the employee has State Service Hours Worked. The automated update will occur on the Monday evening following Semi-Monthly Payroll Cutoff and will reference only those State Service Hours Worked posted up through the previous Friday. Also, the process:

- Will only update benefits that have been created by posting a Conversion Total (68) or Begin Total (27) transaction. Only departments who are new to CLAS will use the Conversion Total transaction.

- Will post a Work (90) transaction up to 160 hours to the SISA benefit.

EXAMPLE OF HISTORY:

An employee has reached the 960 hours needed for a SISA.

B16

Lv Prd	Post Date	Transaction	Amount	
12/05	12/01/05	Begin Total	300	(Posted by User)
12/05	01/17/06	Work	160	(All Work trans.
01/06	02/14/06	Work	160	posted by SCO)
02/06	03/13/06	Work	90	
03/06	04/17/06	Work	160	
04/06	05/15/06	Work	88	
06/06	07/17/06	Work	75	

B14

03/06	710			160	870
04/06	870			88	958
06/06	958			75	1033

Now that the employee has met the hours required for a SISA, most likely they will now be working towards an MSA. In this case, you will need to do the following in order to close out the SISA benefit and begin tracking hours towards an MSA:

1. Post a Transfer To MA transaction to the SISA benefit (SA 46) for any hours above 960 to the previous leave period, since those hours will count towards an MSA.

2. Post a Cancel (35) transaction to the SISA benefit for the 960 hours to the current leave period.

3. Post a Transfer From SA transaction to the MSA benefit (MA 47) for the same amount of hours as the Transfer To transaction. Post this transaction to the current leave period.

The employee's SISA history should now look like this:

B16

Lv Prd	Post Date	Transaction	Amount	
12/05	12/01/05	Begin Total	300	(Posted by User)

04/06	870			88	958
06/06	958			2	960
07/06	960			960-	0

CANCEL TRANSACTION

The Cancel (35) transaction serves a dual purpose:

1. It will prevent further Work transactions from being posted automatically to the SISA benefit.

2. It will prevent the benefit from being listed on the LAB report (provided the End Balance is zero).

However, the Cancel transaction must be the last transaction posted to the benefit in order to prevent any subsequent Work transactions from being posted. Therefore, it is recommended that the Cancel transaction always be posted to the current leave period.

If at any time you want to begin tracking the SISA benefit again, you will need to post a new Begin Total transaction.

DAYS LIMIT - ATW BENEFIT DESCRIPTION

LEAVE BENEFIT ID: DL. (Previously named Days Limit – TAU)

VALID TRANSACTIONS:

Online: Conversion Total (68), Begin Total (27), Work (90), Work Adjust (91), Cancel (35)

PIP: Conversion Total (68), Work (90)

ELIGIBILITY:

The Days Limit – ATW benefit only applies to Actual Time Worked (ATW) employees. ATW employees are identified by a Tenure = Temporary (T) and a Number of Months = Temporary (T) or Permanent in lieu of Temporary (PT). The Days Limit for ATW employees is 194 days of work in a 12-month period on a rolling calendar basis.

The user will be required to create the benefit by posting a Begin Total (27) transaction to the Days Limit – ATW (DL) benefit for ATW employees.

UPDATE PROCESS:

The DL benefit will not be included in the monthly update process. This is due to the fact that only the department is able to determine the number of days worked by the employee by referring to their timesheet.

MAINTENANCE:

The users will need to continue to maintain this benefit according to current procedures. In short, the number of days worked should be keyed each month, and a Work Adjust transaction should be keyed for the number of days worked in the previous year during the same month. As a result, the benefit's balance will not exceed a period of 12 months.

EXAMPLE OF HISTORY:

An employee who has been tracked on a rolling calendar basis for a period of 15 months.

CANCEL TRANSACTION

With the Days Limit – ATW benefit, you will want to post a Cancel (35) transaction for the amount of the End Balance if the employee has an employment history change and is no longer an ATW employee

The Cancel (35) transaction will prevent the benefit from being listed on the LAB report (provided the End Balance is zero).

The Cancel transaction must be the last transaction posted to the benefit. Therefore, it is recommended that the Cancel transaction always be posted to the current leave period and for the amount of the End Balance.

HOURS PROBATION BENEFIT DESCRIPTION

LEAVE BENEFIT ID: HP

VALID TRANSACTIONS:

Online: Conversion Total (68), Begin Total (27), Work (90), Work Adjust (91), Cancel (35)

PIP: Conversion Total (68), Work (90)

ELIGIBILITY:

The user will be responsible to determine whether or not an intermittent employee should be on probation. If an employee is currently on probation, then create the Hours Probation benefit by posting a Begin Total (27) transaction to the Hours Probation (HP) benefit.

UPDATE PROCESS:

The Hours Probation benefit will not be included in the monthly update process. This is due to the fact that the user will need to determine the Actual Time Worked (ATW) hours for each leave period by deducting paid leave and holidays from Actual Hours Worked.

MAINTENANCE:

The users will need to continue to maintain this benefit according to current procedures. In short, the amount of Actual Time Worked should be posted to each leave period.

Once the employee meets the required hours, the user will need to post a Cancel transaction to discontinue tracking the Hours Probation benefit.

EXAMPLE OF HISTORY:

Employee met 1920 hours required for their probationary period and benefit was cancelled by user.

CANCEL TRANSACTION

With the Hours Probation benefit, you will want to post a Cancel (35) transaction once the employee successfully completes their probationary period.

Posting the Cancel (35) transaction will prevent the benefit from being listed on the LAB report (provided the End Balance is zero). However, the Cancel transaction must be the last transaction posted to the benefit. Therefore, it is recommended that the Cancel transaction always be posted to the current leave period and for the amount of the End Balance.

If, for some reason, you want to begin tracking the Hours Probation benefit again, you will need to post a new Begin Total transaction.
